Abril Barbosa: Current Female co-chair of U.S.U and a part of M.E.Ch.A. and in the works of Mujeres Xingonxs. There are clubs in Petaluma and in Santa Rosa that are very similar so I want to create a

bridge between the two campuses. Make it easier for the clubs to do their club duties and to branch out.

-Josh: Abril are you okay, as you had to leave SGA last year?

-Abril: Yes it was due to my health, yet I am getting better

-Josh (Referring to both): What is the % of time that you are going to be in the Petaluma Campus

-Christina: 60% Santa Rosa 40% Petaluma

-Abril: I have Fridays and part of Wednesdays as well as Mondays free for this position

-Fernando: How are you looking to help clubs in Petaluma? What do you mean by help?

V. **Reports/Presentations:**

- A. (Joshua Pinault) SGA History, Budget History : I have lots of experience in this sector, this fee must be used for representation, not just anything that you wanted to use. By CA state law that is not

the appropriate use for this sector of the Budget  
You cannot use the Student Center Fee to fund programs such as scholarships, you can make an argument with thing such as the PTK, but that would require discussion with people who hold very important positions. If those people don't like you you will not get what you want

The last thing is the CubCard Plus, this is a non mandatory fee, this is where all the money for unrestricted funds come. One can use unrestricted funds for different things. It is smart to promote this program because it is where we get money to do things that we want to do.

There are other things we should be focusing on besides fundraising, instead of scrambling trying to find money.

One thing I want to say that with all the shenanigans that we have done we have lost a total of \$35,000. If Eduardo is not constantly marketing for us we will lose money. In the last years we have lost \$50,000, it will surely decline this year. It was not a fun budget to pass but it is something that was worked on for years, decades, if we want to be like the other colleges how do we expect to do important things without the money. Consider the food pantry, because we have connections with local businesses we can give out lots of free food. You are going to have free food EVERY SINGLE DAY OF THE WEEK! Unless Eduardo (referring to marketing position), it is almost impossible to market in this way, we are going to keep struggling, and flushing money down the drain.

Q: Abril: Can you clarify what each section of the budget means?

-Josh: Everything that you worked for and everything that you want to get accomplished or got accomplished, will get destroyed, we have to take into account everything that came before us, so the decision

1. The student center Fee got passed: gave us a one time opportunity to make investments
2. People's positions who have left, Sahara was with us for 30n years, by having these people under our employment

Lamont: Who is they?

Josh: Doug Roberts, you did great advocacy in the last board of trustees meeting

Gavin sorry to put you on the spot, you saved the military \$10 million, you are the most adequate person

**B. (Sabrina Rawson) Student Trustee Report (absent)**

**VI. New Business:**

*At this time the SGA will discuss and possibly take action on the following items:*

- A.** A motion may come forward to rescind the motion passed on meeting #36 May 2, 2016, Approve of ID card price increase to \$5 **Motion to table this item to next meeting M:Lamont S:Josh**

Item is out of order, we have a commitment that we passed a resolution saying that we would do this, if we were to rescind this item that would mean that we would be going back on our word, and what is the point of government then? **(JOSH)**

There isn't anything that says you can't rescind this motion , this doesn't mean that I support it, but you have the right to do it. **(Robert E.)**

Dialogue between Robert and Josh about the logistics of appointing and

When you put your words into something and you don't follow it students have the rights to disappoint you **(Josh)**

Now that I am in student government I feel it is my responsibility to keep the cost low for students, we can find another way to make money besides the cub card plus. **(LAMONT)**

It has already been discussed

Literally ears have been put into these items, It would be premature to vote on this item now.

It is prudent that these discussion are had at the beginning of the meeting as they are important

**MOTION: Josh    SECOND: Gavin    MOTION OUTCOME:**

- B. A motion may come forward to reallocate \$84,650 (64,000 from Student Center Fee / 20,650 from Student Rep. Fee) from Classified to Discretionary **M: S: (No motion made)**

**LEAD/FOLLOW-THROUGH:** Jordan Panana Carbajal    **MOTION OUTCOME:**

**AMOUNT:** \$84,650

**BUDGET LINE-ITEM:** Classified to Discretionary

- C. A motion may come forward to purchase ice cream cart to distribute books **M: Abel Fernando S: Eduardo** <https://goo.gl/CN0AVi>

**LEAD/FOLLOW-THROUGH:** Raí Zaragoza

**MOTION OUTCOME:**

**AMOUNT:** \$2,773.00

**BUDGET LINE-ITEM:** Discretionary

We have been trying to get this cart for over a year "I had a dream", we tried to contact local businesses but that didn't work. We tried to contact people in Sacramento but that didn't work.

Gavin: If we took this straight \$9,527 from discretionary, I would advise a percentage of the money that would be coming from this motion be taken out of Advocacy or other committees

Spending 3 thousand right away would leave us with around \$9,000

Joshua: It seems that this is around ¼ of our current discretionary budget, and the fall hasn't come around yet

Joshua: I would be voting against that item because it would take so much money out of our discretionary, (current discretionary is \$12,300), there is no current money in discretionary, we would actually go into negatives. Even though I really like this item i would be voting against this item because it would take so much money out of discretionary.

Robert: Rai has sold me on this idea, the books have already been purchased, this item has been in the budget for a while and i would push towards getting this item passed

La reva (Member of the Public): I suggest to get a portion of the money through crowdfunding. There are probably people in the community interested

Riley H. (?): You mentioned that people didn't want to build an ice cream cart for you, what happened?

Eduardo: The welding dept. Wasn't

Sara: I understand the ice cream cart concept, but how is it that expensive

Rai: This cart is meant to run on dry ice, but we are not going to need ice, because it is to store books

Gavin: Book popsicles..

Sara: Suggests that there is a possibility of getting the cart in a cheaper way and not having to spend the \$2,000

Rai: I understand that this might be a lot of money, this was something that was meant for people to feel at home and part of a community, but if there is a reasonable amount

Lamont: I would like to talk to the sustainability committee about supporting this item

**Motion To table until all of the committees have met to discussion about this item until all of the VP's have reported to their committees: Lamont S: Abel Fernando**

- D. A motion may come forward to purchase business cards M:Gavin S:Eduardo <https://goo.gl/p6x40s>  
<https://goo.gl/gMgg3N>

**LEAD/FOLLOW-THROUGH:** Jordan Panana Carbajal

**MOTION OUTCOME:** Passed

**AMOUNT:** Up to \$250.00

**BUDGET LINE-ITEM:** Office Supplies

- E. A motion may come forward to reaffirm the 2016-17 Budget M:Joshua S:None

**MOTION:**                      **SECOND:**                      **MOTION OUTCOME:**

- F. A motion may come forward to Electrical installations of outlets at the Student Center to provide power to the Game Center. M:Manny S: Gavin <https://goo.gl/AqxDHB>

**LEAD/FOLLOW-THROUGH:** Manny Monter/Miguel Diaz

**MOTION OUTCOME:**

**AMOUNT:** \$2,000

**BUDGET LINE-ITEM:** Renovation

Miguel D: I've been working on this project to create a student center in Petaluma as it has been used as a cafeteria lately. Since students down there like video games we were able to get TV's thanks to you guys, but we need power. It could really benefit us because we can use these TV'S to promote student life and generate revenue (by charging for rentals, with the use of cubcard plus it would be free). Students could also reserve the center for \$5 (it would be free with cub card plus)

Manny: You (referring to Miguel) pretty much said it all, come play video games

Lamont: I was part of the committee that voted towards getting the TV's, there are lots of people who like games, so I am in support of this item

Gavin: I support this, yet as a finance guy, does this include the taxes?

Miguel: Yes we had someone come and give us an estimate

Gavin: I think this is a worthy purchase, maybe we could get a Santa Rosa ESports set up here so we can compete

Miguel: We can do competitions through the ESports community that can get much revenue

- G. A motion may come forward to fund an SRJC Petaluma Activity Advisor to support student life on the Petaluma Campus M: Joshua S: Eduardo <https://goo.gl/3TePCt>

**LEAD/FOLLOW-THROUGH:** Manny Monter

**MOTION OUTCOME:**

**AMOUNT:** \$15,000

**BUDGET LINE-ITEM:** STNC - Petaluma

Manny: As many of you might know Pet. did an outstanding job at activities that promoted student involvement, Petaluma needs an STNC like Miguel that will help with the Petaluma gaming center and other things such as marketing the cub card plus and building student life

Miguel:: (gives a powerpoint speech)

Joshua: It is obvious that by having this kind of position we get many perks, Miguel is awesome, I heard that you were leaving though?

Miguel: I was going to go into a Master's program, but that has been pushed back, but I love the SRJC

Gavin: It would be reasonable to use that amount of money for this item

Joshua: One last point, Petaluma would have more support than Santa Rosa, if we don't have any positions like that here in Santa Rosa it would be difficult to see the amount of support that Petaluma will get

Hector: Is there a way that we can get a position like this in Santa Rosa

Robert E: The STNC program is ending in a year

\*Applause\*

## VII. Discussion Items:

### A. (Georges Emmanuel Monatin) PEERS (People Empowering Each other to Realize Success) Coalition introduction Armand, Heather, Georges, (Me?): Provide mental health and wellness

Georges: During the election I heard a lot about having a better community amongst the SRJC campuses, in the hand out you can see that there are many workshops that PEERS is giving out. The best way to be successful comes with health, we think that the J.C. needs community building. We have workshops that help with this such as the WELLNESS FAIR. The best thing is that the people that are educated talking about to talk about it. We came here to ask for collaboration (from the SGA).

Lamont: Healthy Bear Cubs are yall helping with this?

Georges: Yes

Jordan: I would advise that you work with the V.P. of student health, and I would appreciate if PEERS would give weekly updates in SGA, yall are more than welcome to come and add discussion items

Josh: We are still in discussion of having a marketing position that would help market for multiple departments

Lamont: I would like to invite member(s) of PEERS to come to the Sustainability committee

Georges: Yes we will be there

Gavin: You are more than welcome to come to the Finance meetings , although it might get a little dry for some people

Christina: There are clubs in the Petaluma campus that would benefit from what PEERS offers , is there a way that we could get your services in Pet?

PEERS: Someone has been assigned to cover Petaluma

Stephanie: Really appreciate your willingness to collaborate with us, we are trying to plan ahead just in case some of the dates don't work

PEERS has a training on how to be a leader on campus coming up : (both wednesdays) August 3rd August 10

Manny: Can we talk after the meeting to get the CPE training in Pet?

Georges: I am open after 6 to talk

Eduardo: That what's up

  - **Hector:** Abril you have met with Manny right?
  - **Abril:** Yes

- Robbert: Does Manny have a preference, since he is not here I would advise to vote until he is present
- Josh: It would not be good to step over another officer's position, it is just housekeeping, as an individual Abril has my vote, but to do this w/o Manny it would be going over his head

- A. A motion will come forward to approve two part-time, permanent positions to support student government in Santa Rosa and Petaluma using existing funds <https://goo.gl/s31E7g>

**LEAD/FOLLOW-THROUGH:** Robert Ethington                      **MOTION OUTCOME:**

**AMOUNT:** Up to \$65,000                      **BUDGET LINE-ITEM:** Classified

- **Robert:** It has been an interesting couple months, I want to stay out of that year saying that has been going around such as brown act violation, what I am hoping is to hear good questions and debate. Whether you approve this today, in the future or never, at least we can say that we had

this conversation. We had been living with an existing staff even before we moved into this building, because everyone wants to use the building. Matthew moved on to connecticut after SSU and I tried to make it in Rock N' Roll and know we are here. We want someone to be working on district projects such as STNC's because Robert has lots to do. Josh said that Robert no offense but we want someone who we can relate with more. Yes maybe we need someone more youthful. The STNC's don't work for you, their job is To work for the president who oversees for their position and then responds to the students. Because we are doing so many more events we need more people to take care of the work that comes along with the events. You all know the ones who were involved last year that Zack was there in order to help you out with many deals and projects and research. Then Josh and I worked together to create the Budget, you should approve it. Once SGA gives it a stamp that is when I will go to the Board and tell them that you approved it. It takes more \$\$ involved in paying a concrete position, an STNC is less inexpensive. By the way you spent 30 thousand \$\$ on elections last year. It sounds like it is a lot but we expect a lot.

- Dr. Long: How many of you have taken classes in Pet? \*audience raise hands\* Quite a few. Deborah has a position over there and does a lot. Miguel Diaz coordinates student events and supports students pretty much ground work, there is talk about creating a part time position in the future. Our measure H includes, the 2 main project in Pet. are science classrooms and creating spaces for student, in order to get the student life up and going. Basically it's Deborah going to meeting (Robert and Dr. Long chuckle), its really helpful
- Robbert: I've gone to my boss Marty Lee and asked for them to pay for all of it. The coordinator of resource center and marketing. It's a two part job, Catholic Charities wants to come in and also get other clubs and organizations, we are trying to make it a resource center, and also a marketing position. It all ties together in order for this to work.
- Robert:
- Eli: I am curious what the cost benefits are with having better marketing would do to the sales?
- Robert: You are really talking about the benefits program
- Josh: It was by chance marketing, because students were required to have student I.D.'s to ride the public transit
- Robert: My theory is that you could increase your revenue by \$30k , but more revenue equals more fees. For us to provide these things is it worth it to have
- Maria: Enrollment is down how is this going to affect the sales of the card?
- Matthew Long: There has been a strategic enrollment plan, we are looking at the long term not just the short term, there are lots and lots of stuff being done. Looking at similar things that you all are looking forward to, nationally enrollments are down, we kind of knew this would happen but that doesn't mean that there aren't people out there that don't want to go to college. Also retention.
- Robert Martinez: it does show that when students are more active it helps
- My deal with you is as soon as you approve some sort of plan I would go to the Union and ask to get an STNC
- Josh: I want it in the minutes to say that this is out of order, what is the emergency for this item to be approved because there is currently no budget approved, I am concerned that this is being brought to a body that is less experienced with employment, I would like to say that I am pro Miguel, my intentions were to have a level O position not a level K, we are at a phase one position, One concern is that we are creating positions out of nowhere, with that we will only have Miguel for 1/5th of the original time, I want not only 1, but three positions in Petaluma, but the only way we are going to get that is better Marketing. This is huge it is not something we should do in 2 meetings, by us not putting funds in that cybear position we have less control over that position the less money we put into it. I don't think this proposal would be the deterioration to SGA, but it would slow down SGA. Nothing in SGA happens through a magic wand, my concern at this point is that we are being taken advantage of. This is something that we should be discussed over a year long process. K is nothing, an O is better, if this language is meaning nothing to you right now it just shows how we should be having more training meetings about this. Those are my concerns if you haven't worked with a budget before, it is my concerns is that as a body who hasn't worked.
- Jordan: Protected Unprotected clarify please
- Joshua: I am following policy if the board were to be looking at this right now and if I said

something and didn't do it would look bad.

- Robert: Josh, that is old news, I have moved on. Policy wise you can make arguments all day long, but with marketing you can get this done. Josh and I have discussed but we don't have the money right now to move with the \$85,000
- Eli?: Why are you voting on \$65k
- Jordan: we had members that went to the B.O.T. (Board of Trustees) and members of this body showed concern about spending \$85K for this position
- Dr. Long: We spend lots of money under short term and non continuing and in reality we are supposed to be converting those into long term
- Robert: The district is more likely to put down money for this position if there is other money coming in
- Miguel: Like I said I love SRJC. But as Robert made a point and Josh has mentioned a lot, marketing is important, there is a lot of innovative and creative things for the marketing the cub card plus
- Gavin: When you are under budget I understand that we want to, there could be a conflict of interest with this item since the possible marketing position will be under someone else's jurisdiction. I feel while this is a good idea there are still answers we need to resolve like what is going to happen with the 20 thousand dollars, like how are we going to approve this position.
- Robert: There is trust in here, and it is my word that you will have as much input in that marketing position, now I can leave tomorrow but it is my word that they will collaboratively work with this body. I reflect you and you reflect me.
- Joshua: At this point if we voted on this it wouldn't be the worst but we wouldn't have as much control over these positions, because I don't think it is the smarter decision not because I don't have moral positions against it. We will absolutely get that money down. This proposal has little amount of student input, thank you this (the proposal for this item) amazing, but it has little student input. There are other intention that I shouldn't be saying in a public meeting for why these positions were created. It is weakening the marketing positions and students are paying for this. We have gotten away for using student money and them not knowing how we spend their money and I don't think that is appropriate. My biggest thing, the body could chose to burn the rest of the money, but this marketing position is the one in charge of bringing money in, the rest I don't care whatever, do what you want. When we do stuff like this we have less influence in these positions, by working on this for an entire year we have more guarantee that we are going to benefit more from this position, but right now it is the smarter choice.
- Robert M.: \*Reads from\* Article 1 Section 1 under Ethics, I believe that this falls under this segment
- Robert: Tell me one body in the country, in the government, state federal, God Forbid that if TRump got into presidency, could he overturn things yes, unless congress stopped him. I go to the drawing board and
- Jordan: There has been much talk about student representation, you vote the way you vote and the way you think would benefit students.
- Joshua: The policy will always back this decision, and even if you chose to vote for a policy that no one can make \*gives a river analogy\*, yes you can make the decision I am going to make the decision that will keep me safe, if the public sees the way I vote I will be safe
- Robert: that is your perception
- Maria: A lot of reiteration is going on, should we table this item
- Robert: I am comfortable with tabling this item, I would either have a subcommittee talk to Gavin talk to Deb. talk to me
- Gavin: Last week i suggested to have subcommittee meetings to review fundings
- Maria: I would like this to happen
- All I am saying is that if we do approve the budget that has been created over years, by delaying this more and more these positions are going to be hit, if the concerns are money that is something we can discuss over the years, yes it is important to review, but there is an urgency that we approve the previous budget, it is not a magic wand
- Deb: I wanted to share the accounting position, we do have a history of starting with a part time position that then goes to a full time position.
- Robert: There is the potential that if we start something big

History Work group: Anything that would Highlight JC history

?: The chance to reach out to the community

Communications group: (hopefully)will put together a special dedicated website for the celebration and will market to the community

Ellen: If you are interested in being part of that work group the next meeting is wednesday, we would like for one of you and other students to be involved, we are hoping that we won't need a lot of money to make this happen. We need recruitment to get people involved. Please fill out the survey monkey. I hear that there is going to be homecoming this year?

Jordan Yeah

Ellen: Good I got a confirmation from the chair, I would be excited to be the first major event of the century

Joshua: What the committees consist of?

Amy: Various different people, with different titles

Ellen: Dr. Chong recommended this group where the action is going to be is in the work groups and maybe the subgroup.

Joshua: For clarification, so the foundation is not helping for the 100th year anniversary at all?

Ellen: They are very busy with fundraising for other things, but they are helping fundraise the money,

Joshua: SGA had set some money aside for the 100th anniversary

Ellen: Dr Chong says there will be funds we just have to figure out where they are

Amy: The real action is going to happen in the work groups

Joshua: Just so the student government knows that we 20K to digitise the oakleaf, I would like to participate in the history portion

Joshua: You might have heard the line of questions, I just want the body to know that the purpose of the foundation is to support the students. When the alumni association and the foundation is not doing what they are suppose to be doing then the Board goes to ask the students

**C. (Robert Martinez) Disabilities and Chairing Report** <https://goo.gl/xWLxxI>

\*presents a google slide\*

Robert: Contact me if you have any questions

Jordan: Thank you Robert

Tabatha: Reach out to your district because they are the ones who provide disability resources and they should provide that, if you have any disabilities you need to notify the chair 72hrs in advance

Robert: I have been contacting the district about this

**VI. Old Business Items:**

*At this time the SGA will discuss and possibly take action on the following items that were brought up in a previous meeting:*

- A.** A motion will come forward to approve two part-time, permanent positions to support student government in Santa Rosa and Petaluma using existing funds <https://goo.gl/s31E7g>

**Gavin: We went through 3 fiscal plans on how we would be splitting the money, the constituents have not been debated yet something that we need to do here**

**Robert: I would call this our plan, I have had a lot of conversations, once we put Bachelors in we need to get creative on how we are going to add this, I agree with this, when you do that the algorithm automatically jumps, but it is a double edge sword because that means that we have to come up with more money. Remember these are part time positions. If you approve this today that would be great, but if you don't get the district to pass this then we won't be able to move forward. I would like to give a written document with the duties of the marketing position and that it would meet this body's needs**

**LEAD/FOLLOW-THROUGH:** Robert Ethington M: Abel Fernando S: Hector

**MOTION OUTCOME:**

**Carried**

**AMOUNT:** Up to \$65,000

**BUDGET LINE-ITEM:** Classified

- B.** A motion will come forward to approve Reaffirmation of the 2016/17 SGA Budget

**LEAD/FOLLOW-THROUGH:** Joshua Pinault

**MOTION OUTCOME:**

**AMOUNT:** \$-----

**BUDGET LINE-ITEM:** SGA Budget

**Josh: one of the biggest things for this is why? Why are we doing this? I have created a plan that could save us more money. \*presents a google docs plan\***

**Deb: For the record the positions presented in Petaluma are misleading**

Josh: In the last two years we've lost \$15,000 dollars

Ann: I would have to do further research to confirm your \$25,000

Deb: When we talk about student success. There are opportunity for student success in Santa Rosa

Joshua: Yes even if you eliminate the positions in Petaluma we still don't have enough positions in Santa Rosa

Deb: I have several roles in Petaluma (basically they are understaffed)

Joshua: I don't see how cutting back these is going to help students, we are at a weekend position already, we are at a vulnerable state right now, If we allow for all these positions students are not going to be served and we will have successfully been swindled by the administration.

I could save the institution: \$40,000 dollars

M: to close debate Fernando S: Hector

Joshua: I would like to have it on the record that I was interrupted

Robert: Point of personal privilege can I ask that you (Jordan) don't hit that so hard for those of us who have sensitive hearing

## VII. New Business:

*At this time the SGA will discuss and possibly take action on the following items:*

- A. A motion will come forward to approve funding for the 2016 Fall Retreat M: Maria S: Abril

**LEAD/FOLLOW-THROUGH:** Abel Fernando Vallejo

**MOTION OUTCOME:** Carried

**AMOUNT:** Up to ~~\$1,500~~ \$1,700

**BUDGET LINE-ITEM:** Retreats/Conference/Travel

Abel-Fernando: Ideas would be: reserving our stay at Pepperwood preserve, approx. \$350 and then food snacks for the time that we will be staying there for 13 being members and the rest are staff or guests, gifts for members of the body, and the Implicit bias training, anything that would not be used obviously the money would go back. The purpose for the retreat is to learn the tools and abilities that this body should have, this retreat would create unity amongst each other and with the staff and faculty that we are going to be working on as well as set our goals for the coming year.

Jordan: Any further questions or comments

Joshua: Using student money to get ourselves gifts is not why I got involved , even though it is very well intentioned I feel weird using student money to get me a gift

Abel-Fernando: I am doing this so we can create unity and when we are present at a football game and we are presenting to the public and we can share and show pride in the institution I had talked to Zack about this and he said it was a good idea

Robert: I would stay away from using the word prize

Abel-Fernando: I guess I could give away the surprise it would be the create unity amongst us and get ourselves SRJC sweaters

Joshua: Sorry for giving the gift away

Robert: I would suggest in changing the wording that says prize to something else

Robert E.: If no one has any objection you can change it

(We were looking at \$1,700 during the presentation on this item and that is what we voted on, so it has been ratified to \$1,700)

- B. A motion will come forward reallocate \$21,063 from SGA Budget to create **M: Gavin S: Emmanuel**

**LEAD/FOLLOW-THROUGH:** Gavin Johnston

**MOTION OUTCOME:**

**AMOUNT:** \$21,036

**BUDGET LINE-ITEM:** \$6,013 SCF from

Classified to Marketing / \$15,050 CubCard+ from Classified to Revisionary Account <https://goo.gl/SXowbz>

\*presents a google slide\*

Gavin: We will lose the ability of having a good plan if we don't decide quickly

Ann: 15K out of paying salary and would be put in revisionary I am still questioning where the 6 thousand should go?

Gavin: I think it was suggested to put it under the V.P. of Finance's committee

M: to table until next SGA meeting Emmanuel S: Hector

#### VIII. Discussion Items:

- A. **(Joshua Pinaula)** SGA Logo
- B. **(Gavin Johnson)** Continuing the food voucher program in partnership with student equity
- C. **(PEERS)** Update
- D. **(Robert Ethington)** Student Center Fee & Student Rep. Fee
- E. **(Able Fernando Vallejo)** Retreat Update
- F. **(Jordan Panana Carbajal)** Endorsing local politicians

**Body's don't normally: I think it is a worthy debate issue but it is not just a common practice because we are representing the whole student body**

**Jordan: I agree but we got voted into these positions by the students, I believe endorsing local candidates can bring a big factor in the students**

**Robert M: I would ask that we hold a town hall meeting so we can get more people's perspectives**

**Jordan: I was considering having the elected officials come in, we could put up a flyer saying that these candidates are coming into SGA and speak on their races**

**Robert: I think that is a great idea**

-Jordan: V.P. of [petaluma is not here but we have a vice chair here, but y'all decide on what you want to do with that money

-Gavin: You guys can decide what you want to do with that money in the committee I chair

-Abel Fernando:

-Jordan: If y'all want to do a certain event y'all can access the student center fee, obviously there is some sort of guidelines

-Gavin: splitting the money into committees that would mean that the have chairs will have access

-Zach: There are 6 committees that you can allocate that money into

-Zach: In the past their was a negotiation made between...

-Robert: Negotiating can be done with Doug Roberts

**D. (Jordan Panana Carbajal) Endorsing local politicians**

-Jordan: Candidates have been contacted to be considered for endorsement. Two out of three have responded to Jordan's email. Rick Call and Mariana have replied and Don Edgar has not replied. In regards to town hall meeting there are time constraints and planning.

-Zach: If there is interest for town hall there is definitely time to plan for it.

-Robert M.: I think we should contact and invite the city council. Also, if we have a city hall we should provide food to attract more students.

Sarah: If there is issues finding space, Shone Farm has a lot of space and also, could possibly provide food.

-Robert E: Make sure you give your full thought. "The students of SRJC have endorsed..." We represent about 3,000 student and we represent SRJC and our board of trustees and our president. It's a big decision and you have your choice.

-Abel Fernando: Has student government endorsed candidate in past?

-Robert E: They have endorsed Trustees but not outside of that.

-Jordan: How can we let students know? Post on social media, and we make sure we open up to the public to make sure we everyone has a say.

-Robert E: Make sure you pack your room to emphasize on our votes if we consider to endorse candidates.

**E. (Gavin Johnston) Continuing the food voucher program in partnership with student equity**

-Gavin: Planning on making a proposal perhaps through F&B committee to go towards the "belly full."

-Jordan: Pilot program for feeding fests

**F. (Joshua Pinaula) SGA Logo**

**X. Communications from the Floor:**

*At this time members of the SGA may make announcements on items not listed on the agenda. Communications shall be limited to 2 minutes. Clarifying questions will be entertained; however, no action shall be taken.*

*Robert: Do you remember the exact words fernando/*

*Fernando: From what I remember, something along the lines! josh am announcing to the board that I am renouncing from the position from But I can't remember the exact reasons, oh for purposes about how the special elections were handled or bullied.*

-Jordan (with Robert Martinez on the phone): Robert Can you clarify?

-Robert M: He said that he would resign, he said I. He did not say that he was returning as ICC he was just returning in the spring as a student

-Robert: I don't want to play games, I talked to Josh and I told him to write a formal resignation letter

Jordan: You met with him yes?

-Robert: I ran into him, I wanted him to communicate directly with the president

-Zach: I just wanted to mention that in the bylaws if you miss 2 consecutive meetings and that continues you can disappoint a member

-Abel Fernando: There should be some sort of integrity, I wouldn't count that statement as a resignation, and as Zach was saying if it falls under that section in the bylaws I would go with that order

-Jordan: If a member stated in a Board of Trustees Meeting that they were resigning what would that mean, as your past position of region 3 what would you recommend us to do

-Tabbitha: It would depend on the bylaws of your S.G.A.

-Jordan: It seems that we are in a grey area and it would be out of order to disappoint someone, but I'm announcing publicly that if they are not present in the next meeting it is going to be put into agenda to be disappointed

-Robert: \*Announces Several Student Events \*Jordan is going to be speaking publicly on Thursday

-Lamont: My mom bought a house so I will be on off campus 3-4 days a week so I will be taking online classes. If you need to get into contact with me let me know.

-Jordan: At the Adhoc committee it was stated that if you don't attend the implicit Bias there are grounds for disappointment

-Tabbitha: I am reading your By-Laws if a member wishes to resign you need to turn in a statement

**VI. Reports/Presentations:**

- **(Sabrina Rawson)** Student Trustee Report 100th Year & 2030 plan
- **(Doug Roberts)** Book Store Update I am here to hopefully dispel a couple of them (rumor) and give a little history about the bookstore. The employees of the bookstore are district employees. Over the last few years there has been a significant loss of book sales in the bookstore, but there hasn't been a significant loss of students. It has gotten to the point that over the past years the bookstore has been losing money. The bookstore operation will need to begin to be subsidized, basically this means that while we try to continue to have the bookstore it could mean taking funding away from other programs. The district is at a point that we are thinking about this process (bringing in someone else). Our bookstore is a retailer (we are the middleman). You always hear about folks that say: 'in order to save money cut out the middle man'. In this process we want to make sure that we are addressing the concerns of the students and the faculty

1: Contracting out the bookstore

2. What are concerns and things that students want to see

3What is going to happen to the people? The folks have been asked if they would like to move into a different position, and a majority have already expressed that they are

- Lamont: Has there been a survey of students who do purchase books in amazon and or the bookstore?
- Doug: Concerns about the bookstore have always been present, are we bucking a trend? There are currently only 6 community colleges that are still in the independent book system
- Lamont: Do you personally think that the Independent Book System is antiquated?
- Doug: I prefer that bookstores would be local, I prefer local control, but at the heart of this issue at the rate that things are going keeping the bookstore is going to begin conflicting with the operating the bookstore, as much as I regret that we may have to go the route that more than half of the districts in the state have already, at some point you kind of have to look at the facts in front of you.
- Eduardo: Do those bookstores that are also independent have these kinds of problems, and if so what are they doing to compete?
- Doug: Generally they do, and what the bookstores do to compete is add food to the sales
- Sara; Would there be potential to have a purchasing co-op with the independent bookstore
- Doug: That has been brought up, but unfortunately with most of the community college in our area we are not getting that geographical groupage of like minded courses and course curriculums, we have
- Maria: What are the negative outcomes of adopting let's say Amazon
- Doug: Amazon won't run a bookstore, in order to buy books on Amazon, for financial AID the funding for books is done through a voucher system, now that might be changing down the road but that would require different financing in order to adapt to any changes
- Robert: Auxiliary Enterprises has 4 seats available
- Sara E.: Would there be a deadline of moving out if an independent system and when would you be looking at having a new system?
- Doug: When we see that there is no profit being done, and the process of getting a new system does not happen overnight the earliest would be after the spring rush or April at the quickest
- 
- **(Maggie Fishman) Introduction**
- Maggie: You guys are really impressive all the questions. Ask Doug if we do move into a new system, what happens to the SWAG, and do we get to rent out the property? Worked in the State Legislator, taught in Montgomery High for 22 years, ran my own firm for students in Sacramento, I am used to asking people for endorsements. If you do the supervisor that is the tip of the Iceberg, make sure you know what is in it for you because usually they want something from you. Just as advice make sure it is the best for the students and what is best for the college. Make sure you know what you want. Does anyone have any questions for me?
- Jordan: Just as a comment Maggie is the only Board member that came through
- Maggie: We love to hear from Jordan and Sabrina, I work for you remember that, remember that about your elected officials , just as you work for the students here.
- Jordan: You can find Do you still hold office hours in Petaluma
- Maggie: Wednesdays from 11:30am-1pm in the Atrion (the reason it is Petaluma is because I represent the 2nd district)
- Lamont: I would just like to thank you Maggie for your comment at the beginning
- Maggie: You know when you can become a board of trustees (Jordan B.)

*M: Lamont*

*S: Eduardo*

- A.** A motion ~~will~~ **can** come forward for Student Government Assembly of the Santa Rosa Junior College to endorse a candidate for the 5th District of the Board of Supervisors - Sonoma County

**LEAD/FOLLOW-THROUGH:** Student Government Assembly

Fernando: What does this endorsement mean?

Jordan: An endorsement entails Student Government Solidarity, how I was looking at it was taking a picture with the candidate that shows the S.G.A. supports the candidate.

Zack: It is kind of saying the the whole body of the SRJC endorses the candidates.

Robert M: I still think we should wait, I think we should make sure that we hear the rest of the students voices, I think it's really important that we get this right if we do do this.

Eduardo: We tabled this item last week just to give each other two weeks just to let the students know, I would suggest that we do take action on this item today.

Lamont: This is a historical event for S.G.A. to get involved in local government. I think that the way that this item is written and I think that it could be amended. I think that we should vote to pass this motion and amend it in order to take it to the student body.

Maria: I would not feel comfortable with voting on this item

Hernan: I motion to endorse Noreen Evans as the candidate for the 5th District of the Board of Supervisors of Sonoma County

S: Lamont

Robert: My advice is to stay out is that you be careful with County Politics because once you make an endorsement

Hector: I would not feel comfortable voting for either individual

Fernando: I would like to clarify that if we do move forward with this motion that they clearly understand that the institution is endorsing and at the same time that it is noted that we are taking action within law, as long as it is within law then I feel comfortable in moving into a vote.

Sabrina: Coming out of an explosive election I think that we have done great job of coming out of this. I think that there could be the possibility of having the light of S.G.A. could have a negative connotation on this item.

Will: I don't know if how many people here live in the 5th district, If I could vote I would abstain from voting on this item

Lamont: I want to clarify that we had, I think it is

Ian: Traditionally the student government has given a candidate an individual endorsement, you can encourage your members to individually endorse a candidate.

Gavin: For sponsorship for those vendors, if vendors are providing services for free it would be disrespectful for us to charge them.

Ian: Make sure you apply your decisions equitably for future events, keep this in mind that any time you make a decision like this you are potentially setting precedence.

Robert: We should probably specify

Gavin: For the time being we would like to set precedent in future events

Fernando: On student Life we have charged for a vendore to come to campus, I would just like ot express my concerns on possible unfairness.

Zack: Our off campus vendors process is something that we should look at,the Paintball business came today to Student Life today and paid in order to be able to table.

Jordan: I would like to get a specific of how many vendors would come in.

### A. (Student Health Services) Psychological services

Bert E.: Services that they have at Student Health Services and Student Psychological Services.

\*Plays video found on S.R.J.C. website\* 707-527-4445 Student Health Services Phone Number

Any students that could be thinking about personal issues, some people come in once, some come in more than once, but it is kept limited. Besides the personal therapy sessions there are group session, and Student Psychological Services also provide services to student athletes. They have 2 people right now in student health psychological services that provide therapy in spanish. They also have therapy in other languages as well. The goal is to see someone the same day as they come in (if it's a crisis especially). We are restricted by our funding, and our funding is provided by the state. The first thing that jumps to my mind about how S.G.A. can help make the Student Health/ Psychological Services Department better is to spread the word. Secondly if we can think of any ways of funding let us know. If you have medical and u=you are looking for mental health services there are 100's of providers in the community w/o having to go through someone from your provider. They are looking on how to better work with students who do not have health insurance.

- E. **(Jessica Jones)** 345 Redistricting Update

-Jessica: Presents an update about current 3,4,5 Redistricting process

Board Meeting in Petaluma the 11th of October

In 2011 the Board did not make any changes in the 3,4,5, area only in the areas of Sebastopol and Petaluma

Asking the district that this is unequal representation as there are almost 2 times more population in this area compared to other areas and there is only 1 Board Member that represents this section

It is important to be informed about this, and be present at board meetings

Trustees that have typically sat in these seats live in the N. part of these areas which could potentially raise the question: are these board members properly representative of the district area they serve on

-Lamont: w/o addressing these problems about how underrepresented communities are affected then we will see no change and that is what we should also bring up in the meeting on October 11th

-Jessica: It costs more to run in area 3,4,5 so it locks people out of being able to run for this position, if these areas were cut into three pieces this would reduce the cost of running in these sections

**A. (Community Health Week squad)** Community Health Week Report

- Abel Fernando: I would like to address the title of the "Belly Full" as it gives the impression that students are going to be full
- Sarai: CPR training 11 students attended and for the Flu shots 184 were served
- Eduardo: This week was a great way for students to feel welcomed by the institution
- Zack: We gave the portions that we were able to give and we were able to feed all the students that came by, I was happy that we didn't turn anybody away
- Robert Ethington: This was the first time we had a Community Health Week and it was Amazing, I think Fernando is right and we need to have an evaluation of the event afterwards, If it's a community feed it should be a community effort, lots of good ideas and nice work!
- Jordan: Thank you Diana, and Dalia for being present and helping during the event, overall it was a beautiful event and it was a learning event, communication is key

**VII. Old Business Items:**

*At this time the SGA will discuss and possibly take action on the following items that were brought up in a previous meeting:*

**A.** A motion may come forward to allow ICC officers to have key cards that give them access to the SGA office/ Cub cave with the same restrictions and use as SGA Officers

**LEAD/FOLLOW-THROUGH:** Robert Martinez

**MOTION OUTCOME:** Fail

- Jordan: \*Dori's letter was read\*

**VIII. New Business:**

*At this time the SGA will discuss and possibly take action on the following items:*

**A.**

**IX. Discussion Items:**

**A. (Fernando Vallejo)** Dining Common during events and while it is rain

- It was unfortunate to see that during the Peers Event the Dining Commons were closed during the majority of the day during a rainy day, even a larger discussion needs to take place for when this matter occurs in the future
- Zack: The decision to close the Dining Commons was not made by Peers but rather by Facilities, it would be a good idea to talk to facilities about that
- Jordan: Yes, this has happened with other events as well, it is concerning for me when we do charge a student center fee but not making it available to students
- Robert: We can influence that easily, we have a challenge with Facilities schedules so if students and myself can sit down and talk to Facilities that would be powerful

**B. (Eduardo Osorio)** Veloxity

**C. María Salcido)** Public Transportation: I will be collecting Data regarding transportation if you are interested in being a part of this contact Maria Salcido

- There would be a potential \$10 fee when you register for classes that would potentially cover not only county but City Buses, in other words the \$250,000 would go into city and county buses. Be cautious on how you would present this information to other people, in order to get that 250,000 the \$10 fee would have to be voted on and passed in the next student elections
- Robert E.: We got 30,000 from the district to continue the program in 2017 at least through June

academic school year, I hope that you continue to discuss this as we move throughout the year, look at the pros and the cons

- Abril: What I wanted to point out because I was one of the Students who benefited from the free transportation, although it was free I stopped using it a semester after that because I didn't feel safe riding the bus, the security in public transportation needs to be addressed and maybe something that we can do is take the initiative to create our own buses for students , and not random individuals, other Universities have those kind if student based transportation systems
- Robert: Safety is something that we need to focus on and it is extremely important to have safety conversations,
- Emy: Student Resource Center Development November 16th 3pm Rotary Center; there will be a discussion on how we can help the transportation talk and other important conversations
- Jordan: Jessica Jones sent out a transportation data pdf. That has 59 pages of information, in high school I took the bus and if I would've known in high school that the SRJC allows students to ride the bus for free I would've signed up for the SRJC

**D. (PEERS) Update**

**X. Communications from the Floor:**

*At this time members of the SGA may make announcements on items not listed on the agenda. Communications shall be limited to 2 minutes. Clarifying questions will be entertained; however, no action shall be taken.*

- Eduardo: I have gotten the numbers from different solar charging vendors for the Solar Charging Stations, if you want to have their numbers let me know and I can provide you with the phone numbers, it's a slow project because it is a big decision, if ya'll have anymore questions about this let me know
- Jordan: Book Store is looking for bids, and I also wanted to say how important college wide committees are, I want to acknowledge that even though we might not agree with all our faculty members they put in time to make this campus a better place

-Member: I'm a classified staff from E.O.P.s and we will bring forth a resolution to the academic senate

-Member: Maybe we can address the way of how we can back each other up when we see acts of violence being threatened, be careful and watch out for each other

-Gavin: Thank you (to the Original 12) for the work you do, and I believe Eduardo has been working on our own resolution

- I've been working with Student Equity and I see that this is something that needs to be worked on in Petaluma
  - Will: Do You have experience with clubs?
  - Alexia: Yes, I have been part of the Puente Club and when we would try and collaborate it was very difficult
  - Deb.: Have you ever taken classes here in Petaluma
  - Alexia: Yes my first semester
  - Gavin: What do you plan to do moving forward here in Petaluma, and do you have the time to work here and at the Santa Rosa Campus
  - Alexia: I do have time to commit to both campuses
  - Fernando: Do you have a job outside the of Student Equity
  - Alexia: No
  - Fernando: Have you met with Abril
  - Alexia: Yes we talked about what the job entailed

  - Abril: I have talked with her and you can ask me if you have any questions as well
  - Miguel: How much time would you be willing to put into students here
  - Alexia: I would talk to Abril to see how much time

## **VI. Reports/Presentations:**

- A. **(Dan Exelby)** District policy regarding records retention and disposal
  - Title 5 requires that districts have a file for the destruction of district records, we are really not going to be changing anything, we are just going Student Records and Finance and Human Resource records that fall into 3 subcategories Permanent Records Temporary Records can be Destroyed After 3 years, those records that we are unsure about can either fall under temporary or be saved for 1 more year if they are unsure. Record Retention Policy is what I'm working on, and before we can revise our I.T. policy, we have to get ourselves into compliance with the disposal of the formal district records.
  - Gavin: Thank You, If anyone has any questions can I direct them to you?
  - Dan: Absolutely, we are not changing our process, the only thing that we are added is a board approved procedure to get into compliance with the law
