- III. Approval of Agenda  
One correction was made to the agenda. The Communication Paper was moved to be reported after the President's report. The agenda was then approved as written.
- IV. Approval of Minutes  
David Herrington asked that "from the Budget" be added to the ~~motion~~ he made last week under Old Business Item A so it will read, "moved to delete the funding for the Homecoming Barbecue from the Budget." The minutes were then approved as written.
- V. Reports
  - A. PRESIDENT: Mark Karahadian discussed the appointments he had made and informed everyone that Hyde Park Open Forum and Dance Commissioner were vacant. Dance Commissioner will remain vacant since Rich Trenam is Assistant Finance Commissioner but he agreed to fill both jobs.  
Kathy Saltsgaver will replace Everett Branson on the Educational Opportunity.  
The Student Affairs Committee is comprised of the following students, Pam Alderman, Bill Adams, Gary Cia, Ken Williams and Andy Duport.  
Mark congratulated Eileen Dougan and Peggy Christian for being selected as Women of the Month for September and October respectively. He also congratulated the new officers Executive Vice-President, Rosa Mar, Vice-President, David Herrington, Recording Secretary, Peggy Christian, Assistant Finance Commissioner, Rich Trenam, Freshman Rep to Executive Cabinet, Andy Duport and Freshman Rep., Pam Buford.  
In Executive Cabinet, Wednesday, Betty Jones a professionally trained travel advisor is making her services available to students. The purpose is to find the least inexpensive and easiest way for students to travel. No money will be transacted. Advertisement will be throught the Bear Facts.  
The Accreditation Team will be on campus November 3, 4, 5. They will be asking questions of the members of CSA and the Executive Cabinet. Please be cooperative.  
David Jessa, Western States director of an organization called Frontlash '70 will be working in Santa Rosa to register under-privileged voters. He is making an investigation of funds as to wether right wing politics is financing the left wing radicals in

reference to the San Jose Riots when President Nixon was recently visiting. He also is condemning the violence. Mark will ask for CSA support on this matter next week.

Mark ended his report by urging everyone in Student government to stick together and not to criticize what is being done. No one likes to be shut down, so the tone of student government is going to be on this level.

EXECUTIVE VICE-PRESIDENT: Rosa Mar reported that there will be an SCIC meeting Wednesday, November 5, 1970 at 3:00 in the Board Room. The finalization of the Teacher Evaluation will be made. It will not be out in time for Pre-registration in December but will probably be out in January. The evaluation will cost about \$350. Everyone interested please attend. Rosa also added that she expected criticism, constructively or otherwise if she were not doing her job up to par.

#### VI. Old Business

A. COMMUNICATION PAPER: Mark received a request from Steve Cabot for funds from the Associated Students Budget to finance the Communication Paper for 10 days. The amount asked for is \$188.50. The reason the extension was being asked for was that the Board of Trustees will not meet until November 16, 1970 due to an out-of-town meeting. Steve Cabot stated that he was not really confident that the Board would finance the paper and that was his reason for asking CSA for 10 additional days. He also hoped to return to CSA to have them finance the paper for the remainder of the semester if the Board of Trustees denied him the money. Steve asked for a discussion to be made on the paper since he was told that there were negative feelings about his paper. He also informed everyone that he had 2,000 signatures encouraging the continuing of the Communication Paper.

A discussion followed with different people reporting their views on the paper. Many members of the body spoke in favor of the paper saying that they felt the paper was a useful outlet for student opinion. Others spoke out against the paper stating that they were tired of the same people submitting articles everyday and reading the same thing. Also expressed, was the high cost of the paper and the precedent that Steve is setting by using the paper as a student project.

Gary Cia, Finance Commissioner stated that by the end of the semester \$1200 will have been allocated to the Communication Paper. The money will come from Publications.

Larry Farrell moved to vote immediately. It was seconded, but failed and the discussion continued.

Rich Truax moved to vote immediately, David Herrington seconded. This motion passed. The motion was made to give Steve Cabot \$188.50 to finance the Communication Paper for 10 days until November 23, 1970 with the stipulation that it will be repaid if the Board of Trustees gives him the \$906.80. A roll call vote was asked for from the floor and the motion carried 12-10.

#### VII. Reports (con't)

David Herrington briefly discussed the issue of housing. Mark stated that Housing Commissioner would be appointed in Executive Cabinet this week.

Kathy Padroni announced that there would be a Parking Committee meeting this week.

John Busek, Bailies Commissioner, reported that Steve Harding would be on the Outdoor Stage at noon on Wednesday, November 4, 1970. Also on November 13, 1970 in the auditorium at noon will be a free Kinlumen slide show.

AWS REP: Ann Coset congratulated Eileen Dougan and Peggy Christian, once again, on being selected Women of the Month. She also reported that the Annual Fall Fashion Show would be held at Los Guilloicious School for Girls on November 19, 1970.

ATHLETICS COMMISSIONER: Bill Adams reported that the Student Affairs Committee recommended a Traffic Recourse Committee. He also stated that intramural basketball was starting and that 5 teams were all ready signed up.

Bill Adams reported that an Activities Council was proposed at the Area 7 Conference. Mark and Bill will be attending a meeting relative to this council next week.

ACTIVITIES ADVISOR: Mr. Canevari introduced Candy Bell, his Assistant Activities Aid. He once again stated that the Traffic and Parking Survey will take place on Wednesday, November 4, 1970 at 1:00. The Accreditation Team will be on campus Tuesday at 12:00. Mr. Canevari congratulated the body on the discussion of the Communication Paper. He thought it was really a good thing. The Student Activities Office has certain functions and officers have certain jobs to do. Please use the place as an office. Mr. Canevari clarified Press Democrat article about Student Body Officers, stating that he did not say the last 3 sentences of the articles. Mr. Canevari also briefly elaborated on the subject of student body resignations.

VICE-PRESIDENT: David Herrington reported that the ICC meeting will be in A-34 not in the Board Room. Davide then proceeded to explain his reasons for resignation last week and his final realization that he wanted the job of Vice-president.

#### VIII. Old Business

A. COMMUNICATION PAPER: Mark noted that these 3 points should have been brought out:

1. the Bear Facts are not read as they used to be
2. the Oak Leaf does not have much in the insert page
3. all action should have been postponed until November 9, 1970

B. CHRISTMAS: The subject of decommercialization of Christmas was discussed quite elaborately. It was decided to limit the project to our campus not the entire community. Andy Duport made a motion to form a committee on campus for the decommercialization of Christmas. David Herrington seconded. The motion passed.

Those who volunteered for the committee were:

Chuck Katsis, Larry Farrell, Kathy Padroni and Ann Coset

Four members will be from CSA and four will be from ICC. Larry Farrell will chair the meetings. The meetings will be open.

C. ENVIRONMENTAL ACTION: Will be tabled until next week

D. INSURANCE: Insurance Policies are available in the Student Activities Office for any student interested.

E. FROM THE FLOOR: Andy Duport made a motion to rescind the previous motion made for the allotment of funds to the Communication paper. David Herrington seconded. A discussion followed the motion and Mark put his foot down saying that this is a stupid and unethical thing to do and why do it. Andy and David both rescinded their motion.

John Busek suggested a way to allocate money for a student budget at the beginning of the year and maybe alleviate the problems that have occurred.

Rich Anderson stated his mind about student government. There was quite an elaborate discussion that followed.

IX. New Business

A. FAMILY PLANNING: Bill Hall is heading up the committee on Family Planning. The county Board of Health is willing to help if we have a place to set up a clinic and the backing of the Board of Trustees. County Health will assist once every two weeks. Problems may be with approval from Board of Trustees. Mark and Bill are having lunch with Dr. Quinn, member of the Board. Mark would like to have student support and probably the best way would be to write personal letters.

Cindy Scarborough will be giving the presentation to the Board.

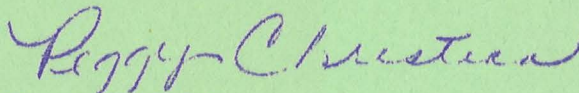

X. ANNOUNCEMENTS

There were no announcements

XI. ADJOURNMENT

Rich Trenam moved that the meeting be adjourned, it was seconded. The meeting was adjourned at 5:15.

## SRJC Student Officers Resign

Student government at Santa Rosa Junior College has undergone a major change in officers with a series of resignations from apparently unrelated causes.

President Larry Gibson, who this semester was re-elected to the top student post, resigned Tuesday.

His resignation followed a stormy session of the student assembly at which James Burnside, executive vice-president, submitted his, followed by Lonnie Russell, assistant finance commissioner, and Ken Beyries, Hyde Park Open Forum commissioner. Mr. Burnside's stated reasons were a heavy schedule of studies and personal obligations that prevented him from doing justice to the elected post.

The appointed commissioners gave frustrations in attempts to get other students to take a serious interest in student self-government.

Mr. Gibson told The Press Democrat yesterday his resignation Tuesday was submitted to faculty advisor Eugene Canevari after he decided the present form of student government is ineffective and serves as a "buffer between the stu-

dents and those who actually work on problems and get things done."

The 20-year-old political science major said he was working with a group of other students to present a new constitution at the next election Dec. 9.

Meanwhile, Marker Karahadian, former vice-president, has succeeded Mr. Gibson as president.

He appointed David Herrington, former freshman representative, as vice-president.

Mr. Herrington was appointed Thursday. He resigned Friday.

Mr. Canevari said yesterday Rosa Mar is the new executive vice president, succeeding Mr. Burnside.

At least she was Thursday. Mr. Canevari was out of town Friday, he said.

To the Associated Student Body President  
of Santa Rosa Junior College:

Inasmuch as no other junior colleges in California charge students from competing schools admission to their home games, be it resolved that we, the undersigned students of Santa Rosa Junior College, request that the students from the colleges we are competing against, who have valid student body cards, should not be charged to get into our home games. This should effect the game on November 6, 1970 (SRJC vs. West Valley College).

- I. Call to Order  
President Marker Karahadian called the meeting to order at 12:00
- II. Roll Call  
Freshman Rep. Andy Duport and Sophomore Rep. Eileen Dougan were absent. Also attending the meeting were two members from the Accreditation Team.
- III. Approval of Agenda  
The agenda was approved as written.
- IV. Approval of Minutes  
Under Call to Order, Larry Gibson was still President, at the time of this meeting. The minutes were then approved as written.
- V. Reports  
There were no reports.
- VI. Old Business
  - A. Communication Paper: Mark stated that he felt the Communication Paper should not be supported by the Student Body. Chuck Katsis felt that the personality of the person writing the paper should not be the issue discussed, the paper should. He also stated that if Steve Cabot got 2,000 signatures in favor of the paper then it must be accepted by the student body. Although Steve original got those signatures to take to the Board of Trustees meeting on November 16, 1970 not as ammunition against CSA. Eileen Dougan is going through Steve's petition to sort out the real names from the fictitious ones. She will have this information Monday for the CSA meeting.  
A discussion followed proposing that the issue of the Communication Paper be put on the ballot for the student body to vote on. This motion died since no one was really interested.  
Mark thought that the lash out against student government was pretty dirty pool.  
Steve Cabot at this time explained that he did not want to come to CSA for any more money, so he proposed to have a vote to set up an experimental grant from the budget to finance project, especially like the Communication Paper. No opinions were given either for or against this matter.  
The Board of Trustees will be meeting on November 16, 1970. The issues to be discussed will be the Birth Control Clinic and the Communication Paper.
  - B. Environmental Action: Mark brought out the fact that this matter was a carry over from Larry Gibson's administration. No one was really in charge which was really better because the project could go as it pleased. CSA feels that this project should be continued since it is a good thing. There will be a Photo Exhibit

on campus November 7-11. This exhibit will be used along with the 30 minute program that is allotted to the Junior College on Channel 6 to help name the top ten polluters.

VII. New Business

A. Oak Leaf Rep: Frank Lawler previous Oak Leaf Rep resigned so Rich Truax who is the alternative should automatically take over. A motion was made to accept Rich Truax as the new Oak Leaf Rep pending that Frank Lawler submit a resignation. The motion was seconded and passed.

B. Housing: A need for Housing Commissioner is grave. Kathy Caffery came into student activities office asking if she could help. Mark suggested that she be assigned to the new job of Housing Commissioner. David Herrington moved that we accept Kathy Caffery as the new Housing Commissioner. Rosa Mar seconded and it was approved. The job of Housing Commissioner is a relatively easy one is mostly involves keeping all records up to date. Kathy Saltsgaver and Pam Buford will be calling all the realtors in Sonoma County to find out about student housing.

C. From the Floor: Mark expressed the need for two positions to be filled those to be on the Presidential Selection Committee and the Clearing House Committee. He appointed Chris Cody to the Presidential Selection Committee and Rosa Mar and Chuck Katsis to the Clearing House Committee which meets every Friday at 3:00. David Herrington moved that we accept the appointments of Chris Cody to the Presidential Selection Committee and Rosa Mar and Chuck Katsis to the Clearing House Committee. Debbie Cox seconded and the motion carried.

Santa Rosa Junior College *J. He. Co.*  
Santa Rosa, California

March 31, 1970

TO: Academic Senate, Administrative Committee, Department Chairmen,  
College Student Assembly, *Classified Staff*  
FROM: Committee on College Calendar  
RE: A Summary Report without Recommendation

A change in our present college calendar could take one of three directions if our goal is to complete the fall semester prior to the Christmas holidays; and allow for more instructional flexibility:

1. Adopt the quarter system.
2. Start the fall semester in August and end before the Christmas holidays. Conclude the spring semester in May.
3. Start a shortened fall term in September, followed by one or two intersessions and a shortened spring semester ending in June.

The committee has arbitrarily chosen to suggest for your consideration the latter method. A proposal for a calendar with an intersession might take any of the following forms:

(1) 13 - 3 - 3 - 13

Students would take 4 courses during the two long semesters and one each during the two three-week intersessions.

(2) 12 - 4 - 4 - 12

Same as above, except for one week difference in length of semester.

(3) 14 - 4 - 14

Under this system a single intersession of 4 weeks allows a student to take one course on a concentrated basis. (Also known as the 4-1-4 Plan, used by St. Mary's and under consideration by Sonoma State.)

(4) 3 - 3 - 3 - 3 - 3 - 3 - 3 - 3 - 3 - 3

This system envisions one course per three-week period for a full year of 30 weeks.

Any of these systems can be adapted to our present beginning and ending dates and to our existing summer session schedule. They could also be used concurrently with the existing semester system.

There are many considerations involved in a change of this kind. Several of them are noted below for your discussion and comment. The committee does not feel free to recommend a course of action, but is unanimous in its feeling that an institution should continually search for better and more flexible ways of educating our young people.

Considerations are:

- 1) The creation of an enrichment/immersion experience for students during the intersessions.
- 2) Allowance for lowering of teaching loads during fall and spring semesters from five to four sections if an instructor teaches one section in each of the intersessions.
- 3) The possibility of teaching in summer session as an alternative to teaching during the intersessions.
- 4) The facilitation of the transfer of students from our institution to colleges presently on the quarter system.
- 5) The feasibility of changing traditional instructional patterns to fit the intersession.
- 6) Equalizing and balancing of teacher loads and scheduling of classes.
- 7) The effect of a modified calendar on our A.D.A.
- 8) The availability of rooms and instructional materials during intersessions.
- 9) The implications for the Evening College.
- 10) Possible hardships that this calendar might impose upon the Registrar's office.
- 11) Question of student acceptance of a new calendar.
- 12) The possible danger of proliferation of course offerings.
- 13) The effect upon the student government and participation in extra-curricula activities, particularly during intersession periods.
- 14) Problems of instructors in revising courses to fit the shortened sessions.
- 15) Number and content of examinations under the new system.
- 16) Arranging special off-campus experiences, group tours, and special events.
- 17) Effect on student enrollments, including enrollments during summer months.
- 18) The athletic program, including consideration of eligibility regulations affecting inter-collegiate competition.
- 19) Purchase and distribution of textbooks.
- 20) Making the fullest use of faculty and staff.
- 21) Faculty opportunity for employment or study during the school year.
- 22) Ambiguity concerning equivalency of work done in any varied calendar period which might give rise to questions about salary adjustments of faculty members.
- 23) Recruitment of faculty.
- 24) Coordination with major holidays.
- 25) Student opportunities for employment and the effect of intersession on students who are employed.
- 26) Operation of the library.
- 27) Cost and efficiency of registration.
- 28) Maintenance problems.

- 29) Necessary modifications in food service procedures.
- 30) Effect upon dormitory operations.
- 31) Printing of catalogs, class schedules and other periodic material.
- 32) Committees, academic senate and other groups in relations to terms of office, eligibility, requirements and election procedures.
- 33) Student publications such as newspaper and yearbook.
- 34) Possible variations in cost entailed in making the changeover to any given calendar.
- 35) Administrative tasks not listed above?
- 36) Other side effects not listed above?

## PROPOSAL FOR A "DOUBLE INTERSESSION" SCHEDULE

In order to eliminate the inflexibility of the present schedule the Schedule Committee submits the following proposal;

- 1) The Academic Year would be changed to consist of;
  - A) a 12-week Fall semester (starting the same date as now)
  - B) a 4-week "First Interession" during the month of January.
  - C) a 4-week "Second Interession" during the month of February.
  - D) a 12-week Spring Semester(ending the same date as now).
- 2) The full time semester load for students and instructors would be changed to 12 units (four rather than five three-unit courses). Since the shortened semester means that classes would have to meet 4 hours per week it is suggested that the MWF class period be changed to 1hr.20 min. and the TTh period be changed to 2 hours. Consideration should be given to allowing classes to meet on a combined schedule (ie. M/WanTh) to allow for greater flexibility.
- 3) During each Interession each student would take, and each instructor teach, only one course. That course would meet a sufficient number of hours during that month to fulfill its unit requirement.
- 4) This proposal would affect all courses and faculty members. If a faculty member did not wish to teach during Interession he would be given the option of teaching a summer course to meet his load requirement.

It should be pointed out that an instuctor during the year would be in class the same number of hours as at present, but these hours and classes would be arranged differently.

It is hoped that this proposal could be adopted for the 1970-71 Academic Year in which case the calender would be as follows;

Fall Semester	Sept.10.- Dec. 9
Fall Semester Finals	Dec. 8 - Dec. 15
First Interession	Jan. 4 - Jan. 29
1st Interession Finals	Jan. 30
Second Interession	Feb. 1 - Feb. 26
2nd Interession Finals	Feb. 27
Spring Semester	March 3 - June 2
Spring Semester Finals	June 3 - June 11

This calender begins and ends the academic year on the same dates as the currently established calender.

Students would register for the Interessions during late November, but 20% of 2nd Interession spaces would not be made available until late January to allow a student to follow an interest aroused by a 1st session class.

## Academic Senate Approves Experimental '4-1-4' Plan

By Staff Correspondent

ROINER PARK — The Academic Senate of Sonoma State College went on record yesterday as favoring the implementation of the highly experimental "four-one-four program," starting in the academic year 1970-71. The new schedule has been used extensively on the East coast and is also in effect at Mills College here in California.

The "four-one-four program" means, in effect, that the academic year will be broken up into fall semester, ending before Christmas, in which full time students will be expected to take at least three or four classes, followed by a four week

term in January, in which students will take one or two intensive study courses. After the four-week period students will return to the regular spring semester and will again take three or four classes.

The present system has a fall and a spring semester, so actually no time will be added to the amount of time students spend in classroom work. The fall semester will be shortened somewhat, but that time will be made up in the shortened four-week term in which students will be expected to do intensive study in a chosen area.

Barring any "legal" problems that would prevent it from being implemented, the new schedule will go into effect next school year.

ALTERNATE "ALL INTERSESSION" SCHEDULE 3-3-3-3-3-3-3-3-3-3

Under this proposal the academic year would be divided into ten equal sessions, each seventeen instructional days long (about three weeks including weekends.) During each session the student would take one class and only one class; each instructor would teach one class, and only one class. During a session a typical three-unit would meet for a total of 51 hours, but the scheduling and length of meeting would be flexible. The calendar would be such that there would be four or five days between each session. Christmas vacation, the present semester break, and Easter break would also be between sessions. The academic year would begin and end as presently. It is hoped that a student would not have to register for his next class until the last week of his present class, thus allowing him to follow his interests throughout the year. If a student took a three-unit class each session he would emerge with 30 units at the end of the year.

What does a small, par-  
tigious Catholic liberal  
arts college do when it is  
presented with a list of de-  
mands by militant stu-  
dents.

Unlike its neighboring  
public campuses, St. Mary's  
College in the East Bay's  
Moraga chose to look at them  
objectively, implement those  
with immediate apparent  
merit, and evaluate the rest.

The result has been that  
the poplar-lined campus,  
which enrolls 930 young men,  
has undergone a sweeping  
but bloodless revolution. The  
college's calendar, curricu-  
lum and entire outlook has  
been drastically changed.

Students, faculty and ad-  
ministrators generally agree  
the changes are for the bet-  
ter—even the plan now in the  
works to let girls in for the  
first time since the Christian  
Brothers took over the col-  
lege in 1863.

#### DEAN

Nobody could be happier  
about the changes than Dr.  
Alan Pollock, the lay dean of  
the college.

"Some of the demands and  
requests of the students had  
already been suggested by  
the faculty, but we frankly  
weren't moving fast  
enough," Dr. Pollock ex-  
plained. "If it hadn't been for  
their pressure, none of this  
would have happened so  
quickly.

"Four years to an adminis-  
trator is normally just  
enough time to get his com-  
mittees rolling to study some  
new proposal. But to a col-  
lege kid, it's his whole car-  
eer."

#### STARTING POINT

The demand for extensive  
changes dates back to little  
more than a year ago with a  
statement by Dan White-  
hurst, 1969 student president,  
in the college newspaper.

"I picture a college in  
which the students are not  
concerned with getting  
grades or preparing for a  
job, but are dedicated to con-  
fronting the great issues of  
mankind, unafraid to consid-  
er or challenge any idea;  
trying to seek out the mean-  
ing of life," Whitehurst  
wrote.

#### GROUP FORMS

"This is nothing revolution-  
ary—these very ideas are  
stated in the '40's '50's Col-

ALAN POLLOCK  
College dean

make certain reforms to  
make them a reality."

Motivated by a genuine  
concern for the quality and  
relevance of their education,  
a movement began among  
the students that eventually  
materialized as an organiza-  
tion dedicated to change and  
called Students for Progres-  
sive Action Now (SPAN),  
with some 100 students sign-  
ing up.

On February 18, 1969,  
SPAN issued a list of "de-  
mands and requests" to the  
administration. The list in-  
cluded a call to break up the  
academic year into more  
meaningful units than semes-  
ters, and a revision of acade-  
mic requirements, grading  
procedures, and house rules.

SPAN also demanded that  
the school, which has served  
only males since its found-  
ing, be made co-educational.

By March, the campus was  
alive with debate. The acade-  
mic council met with  
SPAN members and issued a  
resolution endorsing the pro-  
posals as "worthy of serious  
consideration." Extra faculty  
meetings were called, time-  
tables for decisions set and  
secret ballots taken.

#### HEADLINE

"Professors to Ponder Pro-  
posals Proffered by Progres-  
sive Pupils," the college  
newspaper headlined.

Within 30 days, the faculty  
had voted to throw out the  
semester system and replace  
it with what has become  
known as the 4-1-4 calendar  
and curriculum.

Utilized by several other lib-  
eral arts colleges, including

University in New York, the  
plan breaks up the academic  
year into three parts. From  
September to Christmas, stu-  
dents concentrate on four  
courses, rather than the  
usual five, six or seven which  
is considered a normal load  
under the semester plan.

#### JANUARY

Four more courses are tak-  
en from February to June.  
But the key to the plan is the  
month of January, when stu-  
dents take only one course  
for an entire month. And that  
course centers almost wholly  
around independent study.

Explained Pollock:

"After all, this concentra-  
tion on one thing at a time is  
the more usual pattern for  
serious intellectual work. As  
an example, a scientist or  
scholar will pursue one  
project to its completion be-  
fore going on to something  
else."

Pollock said the stated  
aims of the college didn't  
jibe with what was actually  
done to achieve those aims.  
The stated goals say a gradu-  
ate should be prepared for  
further education or a job  
but, more important, lead a  
young citizen into leading  
thoughtful, intellectual lives,  
he said.

#### CONCEPTION

"For this latter purpose,  
formal education has never  
been well conceived," he  
said. "From kindergarten  
through college undergradu-  
ate years, teachers give as-  
signments, then grade what's  
turned in, and issue new as-  
signments.

"When a young man grad-  
uates from college, he has no  
more teachers or assign-  
ments, but he is expected,  
somehow, to carry on.

"What we need is the oppo-  
site of what we have. Today,  
freshmen are put in the larg-  
est classes with the least  
direction and as they  
progress to seniors they get  
more and more attention.

"Instead, we should be pro-  
gressively freeing the stu-  
dent, putting in a lot of time  
on freshmen and, as they  
mature, freeing them more  
and more for independent  
study. Then when they grad-  
uate, they will be able to  
carry on."

Pollock says he sees the  
4-1-4 plan as a start, "an en-  
gine" for further curriculum  
changes that will improve

study in later years.

"This essentially  
the idea is to  
about," he said. "It is  
just to do what you abso-  
lutely have to stack up  
many units; it is to become  
curious, self-reliant stud-  
ent who goes beyond mere  
assignments.

"This is the kind of educa-  
tion that is going to carry  
man into his adult years  
a lifetime of learning  
discovery. And that's  
kind of education we  
trying to achieve."

#### SEMINAR

The new plan was imple-  
mented this fall, along with  
new "collegiate seminar"  
which was also approved by  
the faculty. The seminar was  
a solution to the sensitive  
question of requirements.

Did the mandating of major  
requirements lead to a lot  
of learning? Or did it tend  
to create a feeling of "do or  
die" time to get a diploma?

Believing the latter might  
be all too true, the faculty  
devised the seminar as a  
core curriculum required for  
all students — an on-going  
four year course that would  
confront them with some  
of the major problems of civil-  
ized man.

Each class centers around  
a prescribed reading list  
similar to the Great Books  
curriculum the college has  
been famous for for years.  
But the seminars are not li-  
ttered to these books, which  
represent the most articulate  
and original contributions to  
our culture. But the books  
the seminar have been ex-  
panded to include all sorts of  
cultural phenomena: litera-  
ture, graphic arts, film, and mu-  
sic.

#### RIGHT

The students have also  
the right to sit in on faculty  
meetings, which, Pollock  
chuckles, has had the effect  
of speeding them up consid-  
erably.

The big test comes in the  
spring, when St. Mary's stu-  
dents will be free to devote  
into individual study for the  
entire month for the first time.  
Some have gone to San Francisco  
to see the Golden Gate  
ment houses, some have  
Napa to observe the  
mental patients, a few  
go to Europe to study  
thing from archaeology  
education.

---

involving themselves in intensive study on a subject of their choice.

An even bigger test may come in the fall of 1971, the tentative date Dr. Pollock has now set for letting in some coeds.

The changes have not been rushed through without controversy, tensions and debate, but there has been little hostility and no violence, Pollock notes.

"Even this process of change through democratic action was a valuable educational experience," he concluded.

Those absent were Finance Commissioner Gary Cia, Sophomore Representative Kathy Padroni, AWS Representative Ann Coset and Publicity Commissioner Ken Osborne.

PRESIDENT: Mark Karahadian suggested that we move on to Old Business and have all reports after that item. The motion was seconded and passed.
- VI. Old Business
  - A. COMMUNICATION PAPER: The matter of Budgetary Freeze was brought up. Andy Duport made a motion to allow Steve Cabot to discuss the freezing of the budget before the discussion on the Communication Paper. John Carroll seconded. The motion carried.  
Larry Gibson mentioned the fact that the Budget had been approved last spring and that there was no money allocated for students to do independent work. He felt that there should be more money for experimental grants so students will have money to do student projects. He suggested that we take \$2,000 from the Athletics budget and take the remainder of the insurance funds and put them into an experimental grant fund. He feels that this would alleviate the hassle students have to go through to acquire money for projects.  
Mr. Canevari pointed out that there is \$1,500 in the budget under Student Services and it was designed into the budget for a Birth Control Clinic, if it came about. He also wanted to know how much money would be involved in the experimental grants.  
Larry stated about \$8,000 would be involved.  
David Herrington suggested another avenue to attain funds which would be to liquidate the Oak Leaf Funds.  
Frank Lawler, Oak Leaf Rep. moved to cease funding of the current Oak Leaf issues, giving the staff and Mr. Cabot alliance to work together in an open communication experience. Mr. Hawkins would act as counselors and they would jointly publish the Communication Paper to fit the needs of the students by giving professional help. David Herrington seconded.

Mark asked Steve Cabot if this motion were acceptable to him and he said he had never heard of it before, and that he opposed the idea of a daily paper the size of the insert page because it would be too tedious to read. He stated he would not particularly like this set up. Mr. Hawkins had not been notified of this motion.

Andy Duport moved to vote immediately. It was seconded. The motion passed. Frank's motion was voted on and failed by a 3-17 vote.

Larry Krogness moved to delete the insurance payment for next semester and take \$2,000 from the Athletic budget and set that up for an experimental grant fund through which the Birth Control Clinic and the Communication Paper will be funded. David Herrington seconded. Larry Farrell moved to vote immediately. David Herrington seconded, the motion to vote immediately failed.

A discussion of the insurance benefits were brought up and several points pro and con were pointed out.

Larry Krogness amended his motion to make fee for insurance voluntary and that information be available on this matter. The amendment was seconded by David Herrington. He also moved to vote immediately on the amendment. Andy Duport seconded. The motion carried. The vote on the amendment was 18-5, it carried.

Debbie Cox moved to amendment the main motion and to delete Athletics so that only the insurance payment will remain. The amendment was seconded. A discussion followed. Mr. Canevari stated that the head of the Athletics Department, Mr. Matson was opposed to any change in the budget. Larry Krogness moved to vote immediately on the amendment, seconded. The motion passed to vote immediately. The vote on the amendment carried by a 12-9-1 vote.

Andy Duport moved to vote immediately on the motion on the floor, seconded. The motion carried. The original motion on the floor was passed by a 20-2-2 vote.

David Herrington moved to add Athletics to this motion, seconded.

Rosa Mar moved to vote immediately, seconded. The motion carried by a 21-0 vote. The vote on the motion to add Athletics back to the original motion failed.

David Herrington moved that CSA give Steve Cabot enough money to finance the Communication Paper to the end of the semester. John Busek seconded. Mr. Canevari thinks Communication Paper should be funded BUT he also feels that an editorial board should be widen to include more students. Andy Duport moved to amen the motion to include the following: a joint committee of editors comprised of five (5) students be established, that Steve Cabot be one of these students and chairman of this joint editorship committee. This editorship committee will function as any other committee and that each member of this committee have equal say. The remainder of this committee will be approved by the Student Affairs Committee.

Steve Cabot suggested that he and Andy discuss this matter and return in a week because he also had ideas for a publications board.

Andy rescinded his amendment so that he and Steve may discuss the subject of an editorial board.

Bill Adams moved to postpone the main motion til next week so that Andy and Steve can straighten thing out, seconded.

David Herrington moved to recess until 5:15, seconded. Bill Adams moved to vote immediately on the recess, seconded. The motion carried.

The meeting was called back to order at 5:15 by President Mark Karahadian. Roll Call was again called. Those absent were Gary Cia, Peter Chin, Kathy Padroni, Tami Ramirez, Ann Coset, Ken Osborne, Sue Meyers and Zandra Raphael. The house count was 20 after the recess. Mark briefly explained parliamentary procedure and asked that it please be followed.

A motion to postpone main motion until next week passed by a 15-3-1 vote. Steve and Andy will be getting together to discuss publications board.

Rich Trenam moved to rescind motion just passed and to give Steve Cabot \$906.80 to fund the paper, if the Board of Trustees agrees to fund paper. John Busek seconded. Larry Krogness moved to vote immediately Andy Duport seconded. The main motion failed by an 8-6-3 vote because there was no quorum.

From the Office of

October 22, 1970

Mr. Larry Gibson, President  
Associated Students of Santa Rosa Junior College  
Santa Rosa Junior College, California

Dear Mr. Gibson:

During the College Student Assembly meeting of October 19, a resolution was passed that requested this office to replace Mr. Richard Nazarian on the newly formed Student Affairs Committee with "a more competent and capable administrator." Subsequently and in order, I engaged in the following conversations: (1) Mr. Eugene Canevari; (2) Mr. Richard Nazarian; (3) Mr. Larry Gibson, Mr. Mark Karahadian, and Mr. David Herrington. Resulting from these discussions, and upon concurrence of all concerned (though to varying degrees), I requested that the College Student Assembly, Executive Cabinet, meet with Mr. Nazarian, Mr. Canevari, and me to confront the issues. We met in the Board Room, Bailey Hall, 7:00 p.m. - 9:00 p.m., Tuesday, October 20.

The discussion was indeed honest and open, and from it results my basic decision to reject the College Student Assembly resolution. These personal reasons are cited. First, personalities more than issues are responsible for the disagreement between students and Mr. Nazarian. In fact, the conflict of personality is centralized in the persons of a limited number of students. Second, the resolution was ill-timed and implies a state of emotional as opposed to a reasoned response. If a crisis stage had been attained, the Executive Cabinet meeting on Tuesday evening should have preceded the College Student Assembly session on Monday in the interests of remediating problems. Third, removal of Mr. Nazarian from the Student Affairs Committee achieves nothing of a constructive nature. Because he is responsible for housing, bookstore, coop, and conduct, he is central to the proper functioning of the committee -- a committee, incidentally, newly conceived and never operative. If there are difficulties in the areas cited, these should be addressed to the entire committee, with expertise contributed by students, faculty, and administrators.

Mr. Larry Gibson

Page 2

Questioned may be my action not to accept a recommendation that was passed by an apparent large vote. I assume full responsibility for my own actions, and, on occasion, responsibility for the action of others. If the Academic Senate, for example, passes a resolution reflecting upon policy, and I'm charged with implementing that policy, in good conscience I will proceed to apprise myself of the details and render a decision accordingly. Relationship to a student agency will not differ.

I submit that the College Student Assembly passed a resolution of the most serious nature, and did so without that documentation which is necessary if an educator of some 20 years experience can legitimately be called -- at least by implication -- incompetent.

Respectfully,

Brook Tauzer  
Acting President

### Proposals for the Judiciary Board

1. The Parking Judiciary Board will be composed of five students selected by the Student Affairs Committee. Three students will constitute a quorum.
  - A. A judge will be appointed by ~~the president of CSA or~~ Student Affairs Committee, who will be responsible for selecting four other students to serve on the Judiciary Board.
  - B. An advertisement in the Bear Facts will call for students interested in serving on the Board to appear before a special meeting of the SAA. This committee will then select five students.
2. The student must appear at the Law Enforcement Department within five days of issuance of ticket (as stated on citation) to appeal the citation. He will be required to post bail until the Board has passed a decision.
  - A. The student will fill out a Notice of Appeal which will include his name, date of issuance, officer who issued the ticket, plus his signature verifying his promise to appear, and his understanding of the Appeal Notice.

The date when the student is to appear before the Board to appeal his citation, will be stamped on the notice so that the student will know when he is to appear at the time he files for an appeal. A copy of the citation will be attached to the notice and dropped into a box provided for the Judiciary Board.
3. The Board will meet Mondays 12-1 to hear the appeals filed from the previous seven days, or five school days.
  - A. If a student is unable to attend the meeting, he will be able to postpone his case only if he refiles his appeal at the Law Enforcement Department before the Board meets. This is a one-time privilege.
  - B. If a student fails to appear before the board on the agreed date, and has failed to refile his appeal, his failure to appear will be regarded as admission of guilt, and he will forfeit his bail. In such a case, if the student then appeals to the Dean of Students, the Board would expect the Dean to uphold its decision regardless of mitigating circumstances.
  - C. The Board will pass judgement based on evidence on hand plus the student's testimony only.
4. The Board will not judge the legality of the parking Regulations, but only whether or not there were mitigating circumstances to warrant a dismissal of the citation issued.
5. The Board will have the power to void any ticket appealed to them on the basis of a majority vote.

# EDITOR'S NOTE:

he paper seems somewhat anti-religious to say--weird, seems like everybody gets criticized sooner or later in this paper. Today the editor catches some of it. Can't please everybody all the time. There is also a petition started up by some members of the executive cabinet putting down the paper. If you wish to stop this paper (let's hope not) you may obtain a petition from the Student Activities Office or see Dave Harrington or Rosa Mar. They're usually in the S.A.O. However, if you really enjoy reading this paper, please sign one of the petitions that state that this paper is worthwhile.

about CSA. What I thought was a good thing has turned sour. It is nothing more than a power hungry clique of students out for their own necks with no regard for the student body. # COMMUNICATION PAPER

Some people have been asking why the OAK LEAF is publishing stories under phony names: Brenda Starr, Wonder Woman, Morton Superstar. The implication is that we're ashamed to sign our legal names to our copy. Ashamed hell! We're schizophrenic and proud of it!!-Brenda, Wonder, & Morton.

OBSERVATIONS: The preamble of our student constitution states: "We the students of SRJC, in order to promote the general welfare of the students, to guarantee the equality of opportunity among students, to offer experience in moral, aesthetic, social, and economic values under an atmosphere of intellectual freedom...as permitted under rules, regulations and policies of the state of California and the Board of Trustees of the Sonoma County J.C. District..."

What is the general welfare of the students, equality of opportunity, experience in moral, aesthetic, social and economic values, and most of all an atmosphere of intellectual freedom AS PERMITTED by the state of California and our Board of Trustees?

If that statement is unclear to anyone, come to the Board of Trustees meeting at 7:30, Nov. 16, 1970. They will be discussing the future of this paper and the existence of a family planning clinic on this campus. Permission for not only intellectual freedom, but moral, aesthetic, social, and economic values which they see fit for students will be given by the rejection or acceptance of this paper and the family planning clinic.-Rich Andrus

CAPTAIN LIFER by Michael Kennedy

Captain: My God Sgt! What is this stuff?

Sgt. Snuff: You like it Capt?

Captain: Like it?! I hate it! This has got to be the worst food I have ever eaten; what is it?

Sgt. Snuff: Well, you know that tube that runs from under the latrine into the ocean?

Captain: You mean this is sh\*t!!?

Sgt. Snuff: Sure capt., I figured anybody that was dumb enough to join the service would surely love this sh\*t stew? Would you like a piece of sh\*t pie capt?

I believe that "Capt. Lifer" is doing the campus irreparable harm in his continual denunciation of the U.S. Armed Forces. Aside from brainwashing the generally indecisive majority to his view by the use of mockery in a macabre "Sad Sack" vein, Capt. Lifer is also avoiding reality. Granted there are a few stupid "lifers," as would be in any human organization, these men are the backbone of the Armed Forces. Without them and regardless of the armed conflict they are involved in, you cannot have an intelligently directed force consisting of "green" drafted or voluntarily enlisted men.-James R. Arnett.

I really know my gods, maybe because I found them myself instead of looking them up in a Bible. So keep Jesus yo yourselves, or at least don't bless me in his name. In reading the Communication Paper lately I see that a lot of you feel that Jesus is the answer; I don't want to knock your religion or anything, but Jesus was a phylousapher of long ago and much of what he said cannot apply to today's world. Many people do not want to accept him today because he has been gone so long. Do you really think that Jesus cares anymore? - The Mirracowl

P.S. Please print this in the Communication Paper. More people read it than the Oak Leaf.

Let's get it together, before it's too late! -Little Red Writing Wolf

P.S. Show me how Jesus can solve the parking problem. Show me how Jesus can save us from pollution, show me how Jesus can stop the traffic problems of our big cities, show me how he can stop the war in Vietnam. When you can do that brother, I am your humble servant. Until then, stop preaching in this paper. This ain't the Bible you know!

To B. Higley: Quoting from Monday's issue, you said "whether or not you believe in God is of no interest to those who read this paper." TAKE IT TO HEART! I'm not a Jesus Revolutionary, but I read the Bible that God said: "If my people who are called My name, will humble themselves and turn their wicked ways, and call upon Me, then I will hear their pleas, cure their sick, and heal their land." Now there is a revolution worth fighting for. And yet, it comes about not through fighting, but through praying, and loving your fellowman, and peace. **TACKLE FOOTBALL RIDER**

The Policy to which this Rider is attached is hereby amended to include the scheduled benefits in consideration of an additional premium paid to the Company. This Rider is made part of and subject to the conditions and limitations of said Policy, except as herein stated. The risk covered by this Rider is not covered under the Policy.

The effective date of this Rider shall be the same as the effective date of the Policy but this Rider expires on the next following June 30.

The benefits set forth herein shall be payable for losses arising from accidental bodily injuries sustained while this Rider is in force and while the Insured is participating in a regularly scheduled and supervised tackle football game sponsored by the school, including practice sessions, hereinafter called such injuries.

**MEDICAL EXPENSE BENEFITS**

If, as a result of such injuries, sustained directly and independently of disease and all other causes and while this Rider is in force, the Insured shall require any of the following medical and hospital services within 120 days of the accident, the Company will pay the actual expense personally incurred within 52 weeks from the date the Insured received his first medical or hospital care or treatment as follows: (1) The amount to be paid for any necessary service of a legally qualified physician or surgeon or X-ray shall be at the rate of \$6.00 per unit value in accordance with the Minimum Fee Schedule adopted by the Division of Industrial Accidents of the State of California, October 1, 1966. Only one fee, the largest, will be paid for multiple surgical procedures performed through the same incision. Only the amount shown in the Fee Schedule will be paid regardless of the number of physicians involved. For any operation or service not shown in the Fee Schedule, the Company shall objectively determine the amount payable on the basis of an operation or service of equivalent gravity or severity; (2) the amount payable for the necessary services of Registered Nurses (R.N. and not a relative) shall not exceed \$420.00 for any one accident; (3) if there is no fracture, the amount payable shall not exceed \$10.00 (\$25.00 for skull) for necessary X-rays; (4) hospitalization due to injury must commence for hospital or medical reasons within 120 days from the date of the accident and is limited to ward room accommodations with three or more beds; (5) the maximum amount payable for special hospital services is \$100.00 and includes such fees as operating room, laboratory, drugs, anesthetics, X-rays, etc., and excludes nurses' and physicians' fees and personal items; (6) plastic or cosmetic surgery is limited to a maximum of \$30.00; (7) a maximum total payment up to \$30.00 will be paid for diathermy, heat treatment, massage or hospital appliances, rendered while in the hospital; and (8) ambulance fees are payable up to a maximum of \$25.00. However, in no event shall the amount payable under the Medical Expense Benefits exceed \$1,500 in aggregate for any one accident.

**DENTAL EXPENSE BENEFITS**

If the Insured, by reason of such injuries, shall require treatment on or to the teeth, the liability hereunder shall be limited to the actual expense personally incurred up to fifty dollars (\$50.00) per injured tooth for such treatment actually accomplished within 52 weeks of the accident on natural teeth.

**ACCIDENTAL DEATH**

If, as a result of such injuries, the Insured shall suffer, directly and independently of disease and all other causes, loss of life within 52 weeks from the date of the first medical treatment, the Company will pay \$1,500 in addition to any other indemnity payable under this Rider. Should the student be confined in a hospital longer than the 52 weeks, the Company's liability shall be extended under this provision until the student is discharged from the hospital.

1. Our policy is with Fidelity Life and Income Mutual Insurance Co. Local agent is Robert Clark of the Insurance Marketing Associates.
2. Each student pays a premium of \$3.80 per year. \$1.90 per semester. 75 cents is billed and paid by the Board of Trustees, 75 cents is paid by the student and goes into the insurance fund, another 40 cents is taken out of the general student funds. Actually, the student pays \$1.15 per semester for the coverage.
3. So far this semester, there have been approximately 20 football injury claims and 15 non-football injuries claims made.
4. There are usually about 300 claims made per year.
5. SRJC has the lowest premium rate available. Most colleges pay about \$5 per student per year.
6. Accidental death--The policy pays \$1,500 in addition to other payments if the injured dies within 90 days of suffering an injury.
7. We have a factor of \$6 on our policy, which, according to the Sonoma County Medical Society, provides the going rate on most medical and surgical expenses.
8. When the policy was re-negotiated this year, benefits were increased in several cases.
  - a. The amount paid for X-rays if there is no fracture has gone from \$10 to \$50.
  - b. Maximum payment for a hospital room has been raised from \$40 to \$50.
  - c. Payment for dental injuries has been raised from \$50 to \$100 per injured tooth.
  - d. On the tackle football rider, maximum amount payable for special hospital services has been raised from \$100 to \$200 and includes such fees as operating room, laboratory, drugs, anesthetics, X-rays, etc. and excludes nurses and physicians fees and personal items.
  - e. Also on the tackle football rider, benefits paid for treatment to teeth amount to \$50 per injured tooth.
9. The ten dollar deductible clause has been eliminated from the policy.
10. Medical expense benefits are payable only to the extent not covered by other policies.
11. The pre-existing injuries clause has been eliminated, so payment is now made for pre-existing injuries. If a football player injures a knee which had been injured previously, he will still be paid for his present injury.
12. A maximum of eight visits, in or out of the hospital, can be made for diathermy, heat treatment, massage or hydrotherapeutics.

Minutes  
Meeting #12  
November 30, 1970

- I. Call to Order  
President Mark Karahadian called the meeting to order at 3:15.
- II. Roll Call  
Those absent were Kathy Saltsgaver, Pam Buford, Tami Ramirez and Zandra Raphael. Andy Duport was excused.
- III. Approval of Agenda  
The agenda was approved as written.
- IV. Approval of Minutes  
The minutes were approved as written.
- V. Reports  
At this time Mark allowed Parliamentarian Chuck Katsis to give his report. Chuck once again announced the Food Drive that Steve Kelly is sponsoring. PEO will distribute the food. Students are needed to collect food on December 12<sup>th</sup> and 13<sup>th</sup> from 12:00 - 6:00. A meeting concerning this drive will be on Wednesday, December 2, 1970 Friday, December 4, 1970 in room 201 at noon.

President: Mark Karahadian read a note from Mr. Maggoria thanking all members of CSA who participated in the Traffic and Parking Survey. He mentioned that the CSA banquet had been tentatively scheduled to be at the Holiday Inn. Debbie Cos, Rosa Mar and Peggy Christian will investigate other arrangements for the banquet. Mark reported that he, Rosa Mar, David Herrington, Eileen Dougan and Gary Cia had just returned from a three state conference in Fresno. He was quite displeased and thought that nothing was really accomplished. The elections were very unorganized, nominations never really closed and vote was not known on the presidential voting. He felt it was a waste of time and money for five delegates to attend and suggested that only the President attend in the spring.

Executive Vice-President: Rosa Mar handed out the 12 questions that will appear on the Student Evaluation of Teachers. She stated that the poll will be conducted a week before the semester is over. CIC endorsed SCIC and gave them permission to proceed with the poll.

Vice-President: David Herrington also voiced his disappointment in the state conference and stated that there was no need for five delegates to attend. He also reported on the Transfer Priority and stated the junior colleges were third in priority rank, service men and high school graduates have one and two, respectively. He would like to propose changing the ruling on junior colleges so that they will be governed differently than secondary education. He read a letter from the Sonoma County Tax Payers Association calling to mind

that students who are interested are welcomed to attend their board meetings, the first being on December 9, 1970 at 7:30. He also mentioned that students with ideas on constructive changes for the United Nations have suggestions in before December 15, 1970. A hearing will be held in San Francisco with Henry Cabot Lodge chairing the meeting to discuss these suggestions made by students.

Sophomore Representatives:

Eileen Dougan reported that the AWS Fashion Show was a success. She also stated her discontent in the state conference and felt Dr. Deegan went along with what was already planned and paid no attention to newsuggestions.

AWS Rep. Ann Coset reported that any club wishing to help the girls out at Los Guilocos, please do so they enjoy having students come out to see them.

Dance Commissioner: Rich Trenam announced that the Christmas Formal will be next Friday, December 11, 1970. The price is \$5.00 per couple.

Election Commissioner: Larry Farrell reported the last day to file for petition will be Wednesday, December 2, 1970 at 3:00. He also announced a meeting of the Christmas committee will be held Monday, Tuesday and Wednesday in room A-34 from 7:00 - 10:00. Any help will be greatly appreciated.

Mid-day Series Rep.: Everett Branson reported that Richard Vasquez will speak on Chicano history Wednesday, December 2, 1970 at noon in the auditorium.

Publicity Commissioner: Ken Osborne reported that the revised Publicity Gde has been approved and is available to anyone who would like one.

Activities Advisor: Mr. Canevari reported that the CCOGSA conference in the spring will be in Sacramento and that only the president will attend. His comment on the Fresno conference was that it was very sad. Wednesday evening there will be a Rotary Rap. Larry Gibson volunteered to attend.

VI. Old Business

A. Finalize Budget Changes for Experimental Grants

Gary Cia moved to finalize budget grants as discussed at last week's meeting. John Carroll seconded.

A brief discussion followed involving the question of what will happen when the money runs out.

Everett Branson moved to vote immediately. Gary Cia seconded.

The motion carried to finalize budget grants.

Mr. Canevari propped some suggestions as to guidelines:

- 1) that grants be granted by a student majority
- 2) grants may not exceed more that \$300.00 per grant once and only once
- 3) schedule of payments
- 4) each grant will include a detailed outline of proposals
- 5) purpose of project and learning opportunities
- 6) each project to have an advisor
- 7) submit budget break down

Mr. Canevari said he would have a proposed guideline for the next meeting.

B. From the Floor

Patrick McLaughlin spoke about Media Montage and the progress it is making. The advisors at this time are Bill Harrison, John Bigby and Jack Perella.

Tom Cameron suggested that alternates be assigned to the Student Faculty Committees because attendance in the past has been poor. He will help Mark select alternates for each committee.

VII. New Business

A. New Constitution

Rich Andrus introduced his proposal for a New Campus Constitution. He was asking for a statement from CSA backing the idea of a new campus constitution. A discussion on several parts of the proposed constitution followed. Since most of the members of CSA had not read the new constitution, Debbie Cox moved to table the discussion so as to give the members of CSA a chance to read it over and return with some constructive comments. Gary Cia seconded. The motion carried.

B. From the Floor

Steve Cooley asked permissioner to do a Photographic Student Project of the beauty of Sonoma County. He was asked to attend the Executive Cabinet meeting on Wednesday to discuss the project at greater length.

VIII. Adjournment

The meeting was adjourned at 4:43.

Respectfully Submitted,

Peggy Christian  
Recording Secretary  
Fall 1970

CALIFORNIA COMMUNITY COLLEGE STUDENT  
GOVERNMENT ASSOCIATION

Office of the Executive Secretary  
1020 Twelfth Street  
Sacramento, California 95814

September 7, 1970

TO: Superintendents, Presidents, and Deans of Students of CJCA Member Institutions, Student Body Presidents, CJC Board of Directors, and CJC Regional Representatives

FROM: William L. Deegan, Executive Secretary, California Community College Student Government Association

SUBJECT: Report No. 2 on the Status of Student Government in California's Public Junior Colleges

This report is the second status report on the progress, problems, and changes made since I took office one year ago. The report contains four main sections:

- I. Accomplishments - A review of changes made since August 1, 1969
- II. Legislative and Policy Resolutions - A report of results of student policy and legislative proposals
- III. Present Problems - An analysis of current strengths and weaknesses of the student association
- IV. Goals for 1970-71 - Plans and goals for the coming year

I. Accomplishments

The past year was an extremely successful one for the CCCSGA. The following is a list of major changes and accomplishments of the past year:

A. A complete reorganization of the statewide student government association.

Nine area executive boards were set up and a nine-man statewide executive board was implemented to facilitate communications and accountability and to insure that each area of the state has both a voice and a vote in decisions.

B. Implementation of the position of Executive Secretary of the statewide student association.

Beginning in August, 1969, the statewide student association acquired the services of a part-time Executive Secretary to help reorganize the student association and to initiate legislative and policy proposals in Sacramento. The position is funded jointly by the CCCSGA and the California Junior College Association and, to our knowledge, is the first of its kind in this country.

C. Initiation of monthly meetings with the Governor.

One of the problems faced by students in seeking policy changes is getting a direct hearing by those in decision-making positions. The CCCSGA has arranged for monthly meetings with Governor Reagan to discuss student problems and proposals and to ask for needed changes. The meetings have helped provide a clearer understanding of the positions and problems of both the students and the Governor. The most notable successes of the meetings to date were the Governor's agreement to sign Senate Bill 524 (concerning circulating petitions for lowering the voting age) and the improved image and visibility of the statewide student association in Sacramento. More meetings are planned for this year, with an emphasis to be placed on the chief executive's support of CCCSGA legislative proposals.

D. Introduction of student proposals as legislative bills or as policy changes.

Following the fall conference, a number of student resolutions were presented to various governing agencies and to the Legislature as proposals for change. The next section of this report contains a complete rundown of how student resolutions fared in the first year of the new statewide organization.

E. Implementation of a quarterly newsletter, "The Student Voice."

This newsletter is published four times a year to help prepare students for conferences and to aid in the dissemination of program information and follow-up of legislative proposals.

F. Seating of students on major policy-making state agencies including the following:

1. The Board of Governors of the California Community Colleges
2. The Board of Directors of the California Junior College Association
3. The student advisory committee to the Legislature's Joint Committee on Higher Education (CCCSGA student is the chairman)
4. State committees on educational opportunity; grants, aids, and loans; and governance

G. Completion of a statewide survey of the progress and problems of student participation in governance in junior colleges in California.

The paper will be published in October, 1970, and distributed to all junior college presidents and student body presidents, and should provide a perspective for individual campuses on how they measure up to current practices in the state as a whole.

H. Revision and improvement of statewide conferences.

Last year the statewide conferences were changed to eliminate some of the duplication that occurred by having the same kinds of conferences in

fall as in spring. This year we will make further refinements. The fall conference will be devoted to developing legislative proposals and to orienting new junior college students. It will be a large (400 students) conference. The spring conference will be a conference only of presidents, and it will be devoted to meetings with key legislators and policy-makers in an effort to improve follow-up of legislative programs. Hopefully, this smaller conference in the spring will reduce costs and increase the effectiveness of the student legislative program.

## II. Legislative and Policy Resolutions

There is a saying in political circles that very little significant legislation is passed in an election year. That saying surely applies to this past legislative session. The session was extremely disappointing, with the Governor's tax reform package dominating much of the time and effort of the session. The following is a report on how CCCSGA policy and legislative proposals fared.

### A. Policy Matters

#### 1. Insuring a transfer priority for junior college students.

A move by the state college system to move unilaterally in establishing transfer priorities was blocked. A negotiated compromise was passed (with the active participation of the California Junior College Association, the Board of Governors of the California Community Colleges, and the California Community College Student Government Association). However, final resolution of this problem is still to be reached. We plan to see how the policy is implemented this fall before taking any further steps. If junior college students are denied transfer in the coming year, we will introduce additional legislation to try to insure them a top priority. Hopefully, this new policy will be effective and additional legislation will not be needed.

#### 2. Establishing a mandatory course in ethnic studies for junior colleges in California.

This resolution was passed by the Board of Directors of the California Junior College Association, and is currently being reviewed by the Board of Governors of the California Community Colleges. Hopefully, this course will be implemented and will contribute in a small way toward better understanding between races.

#### 3. Addition of students as voting members to the Board of Directors of the California Junior College Association.

The California Junior College Association, at its May Board meeting, voted to add nine students as full voting members of the Board of Directors. The action should be ratified by the fall general assembly of the Association in November, thus allowing students to become a full fourth arm of the Association. The new CJCA Board of Directors will consist of nine trustees, nine administrators, nine faculty, and nine students.

B. Legislative Matters

1. AB 1887 (Cory) - To eliminate mandatory physical education in junior colleges. AB 1887 passed both committees in the Assembly, passed the full Assembly after an extended and emotional debate, and was killed in the Senate Education Committee by a vote of 5:5 (we needed 6 votes). The chances of passing this bill next year are excellent. This will be a top priority in our second-year program.
2. SB 524 (Marks) - To lower the age required to circulate petition for lowering the voting age to 18. Passed the Assembly and the Senate and was signed into law by Governor Reagan.
3. AB 2438 (Dedden) - To impose a mandatory student body fee for all students. This bill never had a chance this year. It died in the first committee.
4. HR 11959 (Federal affair) - Increases veterans benefits by more than 30 percent; provides new benefits for educationally disadvantaged veterans. The bill was signed into law by President Nixon. While the CCCSGA was only one of many groups supporting this bill, the student resolutions were communicated to the President and were acknowledged by his staff and by key senators in Washington, D.C. Our support did contribute to the implementation of this law.
5. AB 412 (Grandall) and AB 250 (Burgener) - To provide for additional junior college funding. These bills became entwined with discussions of the Governor's tax reform package (AB 1000 and AB 1001), and have been held for further study. A review of junior college finance is currently under way and should produce concrete proposals late this fall.
6. Lowering the voting age to 18 - this matter is being approached in two main ways:
  - a. Through the courts - The CCCSGA is involved in a court case (through Citizens for Lowering the Voting Age) that will test the recent congressional mandate to give 18-year-olds the right to vote. The case should be heard in October. Depending on the outcome of the court case, we will do one of two things:
    - (1) If we win, we will begin a voter registration drive to sign up newly franchised voters on junior college campuses.
    - (2) If we lose, we will begin a petition drive (under SB 524 just signed into law) to gather signatures to put the matter of lowering the voting age on the ballot.
  - b. In the Legislature - ACA 40 (Briggs), which would have put the question of allowing 18-year-olds the right to vote on the November ballot, passed the Assembly and died in the Senate. The measure received 23 votes, but fell short of the 27 votes needed (two-thirds of the 40-member house).

Until the courts decide on the federal mandate, all of these approaches will be slowed down. Hopefully, the Supreme Court will hear the matter in October and will rule in our favor. A further report on our court case will be made in The Student Voice in November.

### III. Present Problems

#### A. Area organization

When we started the reorganization program last August, a three-year plan for reorganization of the statewide student association was developed. All of the goals for the first year have been achieved. I now believe that the junior college student association is better organized and much more effective than any other student association in California-- at the statewide level.

The next step in reorganization, and a major problem, is to more effectively develop each area in the state so that communications and accountability to local campuses are more fully insured. To date, the statewide student executive board has functioned well. Some areas are also functioning well. We now need to concentrate on additional help to weak areas so all reorganization work will be completed by this spring.

#### B. Finance

While the statewide student association is stronger than ever, many individual campuses are in financial trouble. Sale of student body cards is down, budgets are slim, and programs are being curtailed. The chances of passing a mandatory student body card bill are practically zero. Newer and more creative approaches to financing student activities must be found. The "crutch" of the mandatory student card is slipping away.

Some schools have had success with extensive discount programs that help student cards to "pay for themselves." Other schools have developed new financing patterns in cooperative efforts with the junior college district office. One plan currently being discussed at the state level is to devote a major portion of the spring conference to financial problems. Hopefully, we could enlist the help of several experts on financial affairs to assist us in developing a sounder and more effective approach to financing student programs than the current attempt at mandatory student cards. In any case, the whole question of financing of student activities will be reviewed and acted upon this spring.

#### C. Work in the districts

Almost the entire thrust of the legislative and policy program of last year occurred in Sacramento. This is natural in the first year of operation. However, to be more effective, we must improve contacts with legislators and policymakers out in the districts. Theoretically, when a bill is about to be heard, we should be able to call the nine area presidents who in turn will call the local campus presidents in their respective areas. We should be able to generate hundreds of letters and telegrams, not just randomly, but directed to each legislator from each

local constituency. This is the best way to have an impact in Sacramento. We can get the bill authors, we can provide the testimony, but you must follow-up out in the district. That is a prime goal for spring--to make this system work. If we do, we can involve 92 colleges and thousands of students directly in the legislative process.

#### IV. Goals for 1970-71

We are well ahead of schedule in terms of the three-year plan for reorganization of the California Community College Student Government Association. The major goals for this fall include the following:

##### A. Improve the areas' organization

Each area will meet with the statewide president and the Executive Secretary. At these meetings, plans for each area, unique needs of areas, and suggestions for improvement will be discussed. In addition, new communication mechanisms are being developed to insure that we know about you and you know about us.

##### B. Implementation of special committees

Two special student committees are being set up to try to insure a minority voice in a majority system. The committees are for veterans and minorities. These committees will develop legislative proposals to bring to the fall conference, meet with legislators to discuss these proposals, and advise the state board and the Executive Secretary about needs of their particular group.

##### C. Foundation proposals

Two proposals for foundation funding of CCCSGA activities will be submitted this year. One proposal will be for a general grant to help improve and expand CCCSGA statewide activities. This money would be used for student publications, travel, and expanded conferences and communications.

A second proposal would request funds for several student interns to assist the Executive Secretary in working with policymakers and legislators.

Both proposals are now in draft form and should be submitted this spring.

##### D. Further refinements in conferences

As mentioned earlier in this report, there will be one large conference in the fall and a conference of student presidents in the spring. The format of the conferences will also be changed. New workshops will be added and ineffective workshops will be deleted. It is also imperative that area presidents do a much more effective job of orienting students before they come to the state conference. Preparation is the key to effective student programs. We can only do so much in providing opportunities for students. Beyond a limit, students are entirely on their own in making the most of those opportunities.

E. Development of a special student services program

Plans are under way to offer a number of special student services through the CCCSGA statewide office in Sacramento. Included in the plans are the following kinds of services:

1. Discounts on travel programs

Current proposals include trips to Europe, Hawaii, etc. CCCSGA members will soon be able to travel at a reduced rate. Negotiations are currently under way with several travel groups, and a final contract should be produced late this fall.

2. Discounts on special purchases

The CCCSGA is examining the possibility of arranging special discounts on certain services and products (such as automobile necessities, insurance, entertainment, etc.). This particular program will be developed this spring and will be ready for implementation next fall.

A final note

To help all of you communicate better with each other, I am enclosing a list of names you should know. Hopefully, all of us can work together as effectively as last year to produce further needed changes in public junior colleges in California.

If you have any comments, suggestions, or criticisms of the ideas presented in this paper, please drop me a line. I would appreciate your judgment.

Good luck in the coming year and welcome back.

1. CSA's relationship to the Student Body
2. CSA's student participation on these various faculty committee
3. CSA's inability to interest several active factions of the student body so that these factions would work through CSA

A committee should be formed to look into these problem areas and funds should be allocated for a survey to investigate these areas. Marie Balentine was appointed to investigate for this survey until a chairman could be found. An elaborate discussion followed Marie's presentation.

The Board of Trustees are going to consider changing the name of the

college from Junior college to Community college. Gary Cia moved to support the name Santa Rosa "Junior College" as SRJC. Andy Duport Seconded, the motion carried.

The proposed student project is an illustrated booklet in a comicbook format. The unique value of the project is that its subject is Black ghetto life and the characters are Black residents of the ghetto. This origianl booklet will be a pilot and depending upon community reaction, the first of a continuing series.

The audience for this booklet will be the residents of the South Park area of Santa Rosa. The intention of the project is to provide a source of positive identification for Black youths and an insight into Black ghetto life for white youths. The accomplishment of either of these goals would justify the project as a valuable education experience.

Charles Porter, applicant for the student project grant, intends to hire an artist to illustrate the booklet. Ultimate goals of the project include a monthly insert in S.<sup>A</sup>.J.C. Oak Leaf publication. The student project grant will enable Mr. Porter , a sophomore at S.R.J.C. to begin the pilot effort and, hopefully in his use of an uncommon educational medium provide an enriching educational experience for both himself and his audience.

I would like to request a \$300.00 student grant for a high quality black and white photography project. The prints, archivally processed and matted on museum board, would be the beginning of Santa Rosa Junior Colleges permanent collection of fine photographic prints.

The photographs, to be of nature scenes, will be specially processed for maximum quality and permanence. Using a modified Morgan-Adams archival process such as the Smithsonian uses, the prints will theoretically last 150+ years. The end result of the project will be a portfolio of the finest prints to be presented to Santa Rosa Junior College for a permanent collection. I will retain all rights to the negatives and prints made from them, but the college may use the prints from the portfolio as they wish, such as shows, displays, etc. The prints may not be cropped or reproduced in any form. One idea for their use may be a display in the new college library when it opens.

The benefit to me would be twofold: 1.) I would be able to work with highly advanced methods of fine photographic print production, and 2.) I would gain valuable experience with my medium.

I feel that since the effect a photographic statement has depends upon the print one sees, the better and more controlled the print is, the clearer the statement. I expect to learn more about the subtle nuances of the photographic print and its creation, and as my life shall be as a photographer, this is of the utmost importance to me. I want to be able to make a photographic statement and have that statement live in a print which I create.

The subject of the photographs, nature, is a topic with which I am familiar photographically and spiritually, and which I feel to be of the utmost importance to man and his future. I have done previous shows at Santa Rosa Junior College, including a display for the college production of "Little Mary Sunshine", and recently a show of environmental photographs. Both of these productions have been about a given theme, but this is to be my theme, using highly advanced methods of production. I am currently employed as a photographer for the Speech and Drama Depts. of SRJC.

Dear Mr. Canevari,

As a student of Santa Rosa Junior College, I am writing you to request that the results of Wednesday's elections for executive vice-president be declared void on the grounds of an improper ballot.

Run-off candidate Mark Chase is not and has never been a student at SRJC. It is doubtful that he even exists. His candidacy was conceived by a group of students for the purpose of conducting an experiment to gauge student apathy. That achieved, I can no longer, in good conscience, be part of his campaign.

His candidacy was not intended to be a rebuke to your office or to the current officers of the student body, and it is sincerely hoped that it will not be received as such.

Perhaps the run-off election scheduled for next week could be used to hold the Exec. Vice-Pres. election over again.

Respectfully yours,

*Bill Dagh*

COLLEGE STUDENT ASSEMBLY  
Dec. 7, 1970

I move that:

WHEREAS a new concept in campus-wide government has been proposed for consideration in the College Student Assembly and by the campus community as a whole and,

WHEREAS it has been expressed that the document presented needs refinement and,

WHEREAS active support and participation by each segment of the campus community is essential to the concept of campus-wide governance,

THEREFORE BE IT RESOLVED that the College Student Assembly seek opinions and response from the Faculty Senate, Administration, the California School Employees Association and other members of the campus community as to their interest in participating in the campus-wide government.

1. Article I. What are the qualifications for purchasing a campus government card?
  2. Article I, Section 2. What is the definition of Academic Freedom as outlined by the California Education Code?
  3. Article II, Section 1. How does the Elections Board provide for the responsible selection of candidates?
  4. Article II, Section 1. What are the qualifications for candidacy?
  5. Why is there no provision for a check on the Elections Board? It is conceivable that the Elections Board could stack the ballot.
  6. What does Article III, Section 2 mean?
  7. Article III, Section 3, what means does the President employ to perform this function? Does this conflict with the Accreditation Team?
  8. Article III, Section 4. Why not have an order of succession? What is the provision when none of the Vice-Presidents can assume the duties of President.
  9. Article III, Section 5. What are grounds for discharge of the Pres.?
  10. Who elects the president?
  11. Article IV, Section 2. What is "adequate feedback" as stated in this section?
  12. Article V, Section 1. This section does not provide for equal representation of students with undeclared majors. The number of undeclared majors at SRJC is near the 50% mark. According to this constitution how would fair representation be accomplished? Is this in the constitution?
  13. Are the representatives elected by the total of the campus government?
  14. Can this government decide tenure of faculty?
  15. What does the Academic Senate think of the proposed Constitution?

## UC Faculty Desires To Go Back To Semesters; "Harmful," Not Helpful

BERKELEY — A University of California faculty committee suggests abandoning the quarter system and reinstituting the semester plan at UC's nine campuses.

The Academic Senate's Committee on Educational Policy issued the report yesterday, saying the educational consequences of the quarter system are "more harmful than helpful."

UC regents switched to four 10-week quarters four years ago with the idea of more fully utilizing expensive campus facilities.

But the 1970 summer quarter was eliminated in an economy move and a similar move is being considered for next summer.

The summer quarter was "pivotal to the advantages of the quarter system," the committee said.

A survey last week of deans and department heads revealed that two favored quarters, three were neutral and 40 others "expressed mild to vehement disapproval."

The Berkeley Academic Senate has scheduled an advisory vote on the topic for Nov. 10. The final decision rests with UC regents.

Since abandonment of the system of two semesters in a nine-month academic year, the committee said incomplete grades have risen sharply.

"A student finds the quarter to be a hurried and unsatisfactory experience," the report said. "He spends a higher proportion of his time in mechanical tasks that have nothing to do with his education.

"The faculty member . . . finds himself teaching 'bit-sized' survey courses in the time available."

Article X    Enactment Clause

Section I

However, this Constitution will not become effective unless the Faculty Senate, the Classified Staff, and the Administration vote to implement it.

CANFVARI

PROPOSAL  
FOR A  
CAMPUS  
GOVERNMENT

**PROPOSED CONSTITUTION FOR  
THE ESTABLISHMENT OF A  
CAMPUS GOVERNMENT AT  
SANTA ROSA JUNIOR COLLEGE**

**Prepared by Rich Andrus**

## PREFACE

The idea of a campus government was presented originally at this year's Hoberg's Conference in the form of a proposal which would somehow provide an organization that enhanced effective communication between students, faculty, administration and classified staff. Reference was frequently made to the concept that we are all involved in education as one large family.

If we are to function as "a large family," or indeed if we are even to communicate openly and honestly with one another, we must do so not only on retreats as was the case at Hoberg's, but at "home" also. It seems to me that we should discuss and integrate our differences on campus and should strive to make future Hoberg's, "vacations" and not retreats for the entire "family".

It is hoped that all copies of this constitution will be returned to me with comments and evaluations written in the same spirit as was this constitution; which was and still is a search for workable and creative solutions to the problems of conflict we all face on this campus.

Vital to the integration of any conflict is a feeling of equality sensed by the conflicting factions. Readers of this constitution hopefully will sense the importance of sincerely felt equality amongst students, faculty, administration and classified staff, that is necessary for efficient and meaningful communication.

The adoption of this constitution or some closely related

form of it by all of us at this campus could minimize the severity of the divisions between us and maximize the potential for a meaningful educational experience so desired by us all.

## ACKNOWLEDGEMENTS

This entire constitution has been taken from a model proposed by the Center for the Study of Democratic Institutions.

Many valuable insights and key problems of faculty, students and administration were revealed to me, and aided in the formation of this constitution in "The American University" by Jacques Barzum, who was Dean of Faculties and Provost at Columbia University for twelve years.

Personal thanks for encouragement and suggestions should go to my fellow students, faculty and administrators who I have met with in the past few months to discuss the idea of a campus government rather than a student body government.

Please return all comments  
with this constitution to  
Rich Andrus in care of Bob Dodds,  
Dept. of Social Science, Brook Tauzer,  
Dean of Instruction, or to the  
Student Activities Office.

## PREAMBLE

We, the students, faculty, administration and classified staff of Santa Rosa Junior College, together with the Board of Trustees, in order to establish a flexible and creative form of self-government, do ordain this constitution as our own; whose purpose it shall be to provide for the constant improvement and quality of education through open and honest communication between all concerned.

Subject: Student Conduct Guideline Suggestions Resulting  
From Consultant Services.

The question has been raised with reference to the processing of proposed revisions in the student conduct guidelines. With all facets of the campus community involved, it seems obvious that after February 15 (deadline for the final report) a general review by the various segments is required for comment. Thereafter adjudication of differences may be necessary. Specific procedures will be sought through the Clearing House Committee. I have placed this item on the agenda for December 11.

The purpose of our joint research project is to explore three areas of the silk screen printing process. In all three projects the application of photographic stencils will be used to derive the imagery.

Rick Cate will explore the interaction and relativity of color. Of primary concern will be the investigation of non-spectral color, namely fluorescent silk screen pigments. This will be accomplished by the use of multiple printings using repeated images and then varying the colors and registration of each printing.

Steven Kelez's project will involve the investigation of photomechanical techniques and manipulations in creating photo-silk screen stencils. This will include rosterization, montage images, and the overprinting of multiple texture and pattern screens. Also planned is an experiment to create what appears to be a three dimensional image, but infact is a two dimensional print. This is possible by offsetting each print and by using colored filters when viewing the final print.

Gary Lisandrelli plans to explore imagery possibilities by combining hand derived stencils (direct blackout) with photographically derived stencils. By combining these two stencil techniques Gary plans to create imagery that becomes surreal. Within this surrealistic format Gary also intends to create the sensation of motion, metamorphosis and depth.

All three participants are art majors with a special interest in printing and photography. By combining these two graphic arts processes we hope to explore a new dimension in image making. Through practical application we also hope to learn about color and form and its effects upon one another in creating an image. By having a joint project, with individual research, we feel that there will be a great deal of information

exchange as well as a sharing of the materials involved.

Upon the successful completion of this project we plan to put on an exhibit of our best prints in each area we have chosen to work in. We hope you will make this possible through your generosity and the Student Project Grant.

I, the undersigned student of Santa Rosa Junior College apply to the Associated Students for an experimental grant in the amount of \$256.70 to carry out a project in altering the relationship between students and textbooks in Health Education. I am all involved in the Health Education program as teaching assistant for the Spring 1971 semester. I will undertake to buy back 45 textbooks from students who now own them. We feel the text is of sufficient quality that it will not be replaced in the next couple of semesters. I will acquire 45 books which will be placed in the library so that students will have access to them. I will buy back books which are in good sturdy condition only, at a price of \$5.70 which is 60% of the original cost.

I feel that this will be beneficial to all students as it increases options as to how the experience of taking the required Health Education class can be approached. This will free students' money with which to buy more varied books of a relevant nature.

Thank you.

The Professional Relations Committee of the Academic Senate in response to a number of complaints, wishes to remind all originators and distributors of written or printed matter to be disseminated on campus, in faculty mailboxes and elsewhere, of regulations adopted and approved by the college and obtainable in the Faculty Handbook and elsewhere regarding such dissemination of material on campus. A key issue is the identification of material by person or organization originating it. Both originators and distributors of material should see that this policy is carried out in practice.
