Take heed, the environment is being threatened. In order to stop more parking lots being laid on the earth; paid parking has been suggested for Santa Rosa Junior College. Parking arms will be installed at the expense of the students. It will cost you an estimated \$18 a year to park your car. The money collected will pay for the gates, maintenance, etc.

There are alternatives to this. If you have other suggestions bring them to the Parking Committee Meeting on February 12th, at noon, in the Board Room, Bailey Hall. Become aware of the fact that this affects you.

In the meantime the forming of a carpool is once again being attempted. Please cooperate by filling in the form and bring it to the Student Activities Office. Effort will be made to get you into a carpool, saving you money, air and land.

Oct. 26, 1973

I briefly discussed with Bob Moggiora what was said at our recent meeting celout the associated Students contribution to the Outs & Lectures budget. I told him that it was the Finance Commussioner's opinion and your opinion that the student government would like to continue contributing on an equal basis to the Mid-day Series and Mid-week movie difficulties prevented this. For this year, the suggested 3/3 destrict 1/3 associated student ratio of contribution was acceptable but even here there were serious doubts whether the student government had the money to meet this ratio.

Given the uncertainty about the amount of the student contribution, Bob ogreed that the committee could proceed on the assumption that the District's contribution to the arts of Fectures budget of \$3100 for Mid-day Series, 2400 for movie of \$600 for Open Forem was fum and committed no matter that the student contribution is. However, this agreement assumes that the student government will make every effort to give their shore of financial suggest to the programs. I told Box that it was my ingression after our meeting that this would be done.

MEMORANDUM

To:

From: Eugene S. Canevari, Student Activities Advisor

Subject: Attached Students'

Budget Amendments

Date: 11-2-73

The attached budget reflects the amendments made to the S.R.J.C.

Associated Students' budget, by the College Student Assembly on Monday,

October 29th. These revisions were made necessary by a decline in

student body card sales. Most budget items were reduced by 27%, or more.

This budget is contingent upon the level of student body card sales for the spring semester. Depending upon these sales this budget will be revised to reflect that level of support.

I am sorry that we have had to make these cuts. Its hell to be poor! Call me if you have any questions.

Sincerely,

Eugene S. Canevari

Phys. Ed. No Longer Mandatory

Legislation that deleted any wording in the California Education Code dealing with mandation of physical education at the community college level was signed early this month by Governor Reagan.

The Governor's action came as a stunning blow to the California Association for Health, Physical Education and Recreation (CAHPER), and the Community College Association (CCA). Both Associations had vigorously opposed the legislation, which passed easily through both houses of the Legislature.

Walter Rilliet, Skyline College physical education department chairman, and chairman of CAHPER's community college section, expressed his appreciation to CCA for its support of the CAHPER position. He also pointed out the possibility of a serious drop in community college physical educa-

tion attendance.

In a telegram to Governor Reagan, CCA president Lavier Lokke urged that the measure must be vetoed, pointing out that "medical evidence clearly supports the need for increased physical activity and recreational opportunities for all our citizens."

It is anticipated that CTA and CAHPER will be supporting opportunities throughout (Continued on Page 3)

the State this year that will allow community college physical educators to meet and share ideas that will develop and promote more productive physical education programs. Already, community college physical education staffs have begun to revaluate their curriculum in light of meeting the immediate needs of their students. Special emphasis is now being placed on classes involving lifetime activities, such as physical fitness, bowling, archery, badminton, golf, ice skating, back-packing and other courses that will allow students to enjoy as well as benefit from participation in the physical education curriculum.

The student must be instructor to report to the financial aids/student placement office to complete certain employment forms. The instructor shall also maintain a record of hours worked by the student on a form secured from the accounting office. This form is signed by the instructor at the end of the month and turned in to the accounting office by the student. Past experience indicates the wisdom of cautioning student readers that they are to perform their work in privacy at home or in the instructor's office.

Reader assistants may be either adult or student, based in part on the nature of the material to be read. The dean of instruction and the student placement office will be able to give aid in identifying appropriate individuals.

COLLEGE CAR, USE OF

Use of a college automobile, if available, is required for approved trips, and one may be reserved through the secretary of the dean of instruction. If none is available and the faculty member must use his own automobile, he will be reimbursed at the rate of 10¢ per mile. Use of a private car is generally not approved for a long trip unless the cost to the college for transportation is thereby reduced.

When several faculty members are going to a conference, it is expected they will travel in the same car, unless one or more of the participants desires to furnish his own transportation at his own cost.

COMMENCEMENT EXERCISES

These yearly exercises are held at 10:00 A.M. on the Saturday immediately following the conclusion of final examinations. It is impressive in its setting under the oak trees and each member of the staff participates in the academic procession. This is considered to be the last official duty of each instructor for the year if he has completed each of the other actions listed under Year End Requirements.

A traditional outdoor breakfast is held the morning of the exercises for the candidates for graduation and their husbands or wives. The candidates may also invite members of their families as their paid guests. The college invites as its guests individuals and organizational representatives who have rendered special services to the college. The faculty generally participates in this attractive event.

COMMITTEES, COLLEGE-WIDE

(Adopted by Clearing House Committee, May 4, 1972)

A. College-Wide Committee Structure

The college-wide committee structure at Santa Rosa Junior

College is designed to allow for active participation by all segments of the college community in the formulation of policy recommendations.

The various segments of the college: faculty, students, classified employees, and administrators may have committees composed of members of their own groups to work on problems relating to their particular areas. However, the primary purpose of the college-wide committee structure is to bring together representatives of all of these segments to participate in the policy making process as it relates to the entire college.

It must be recognized that the official policy making body of the college under the provisions of California State Law is the Board of Trustees. The primary function of all committees will be to recommend policy to the Trustees through channels as defined in the statements of committee duties and procedures.

It is expected that before any action is taken by a committee, it will actively solicit and carefully weigh points of view of other groups and administrative personnel outside of its own organization.

Once policies are adopted by the Trustees, the appropriate administrator shall implement them as defined and approved. Periodically the appropriate committees will evaluate the policies and will make recommendations for revisions if needed.

In those cases where a committee is given the authority to make decisions, the right of appeal to the committee shall exist. The channels of appeal shall be defined in the duties and procedures of each committee as appropriate.

In essence, the power of the committee structure rests in its ability to present reasoned recommendations to appropriate bodies after due consideration by all appropriate segments of the college community.

B. Committee Assignments

First year teachers are not eligible to participate as voting members of standing committees. However, they are welcome to attend any committee meeting which interests them.

1. Faculty committee members are assigned by an Academic Senate committee on committees using the established procedures for making committee appointments. Recommendations of the committee on committees are subject to confirmation by the Academic Senate.

- 2. Student members of committees are assigned by the College Student Assembly (CSA).
- 3. Classified members of committees are assigned by the local chapter of the California School Employees Association (CSEA).
- 4. Administration members of committees are appointed by the college president.
- 5. The committee on committees will coordinate appointments from the various segments.

C. General Provisions to be Observed by all Committees

- 1. All committee meetings shall be open to any interested party unless otherwise indicated in the duties and procedures of a committee.
- 2. Persons wishing to present an item at a committee meeting shall notify the chairman. It will be the responsibility of the chairman to schedule these items at the earliest possible time.
- 3. Committees shall operate under the rules of procedure provided in "Sturgis (Robert's Simplified) Standard Code of Parliamentary Procedure".
- 4. Each committee shall select a recorder who shall provide a written record of all committee meetings to include all actions taken, as well as a list of the members present and absent. These minutes shall be distributed as follows:
 - a. Each member of the committee
 - b. President of the college
 - c. Chairman of the Clearing House Committee
 - d. President of the Academic Senate
 - e. President of C.S.E.A.
 - f. Associated Students President
 - g. One copy posted on Faculty Bulletin Board
- 5. Vacancies shall be filled by referral to the committee on committees which shall follow the procedures for all committee assignments.
- 6. In the event of excessive non-attendance by a committee member, (as defined in each committee's procedures) a committee may request a replacement.
- 7. Each committee shall elect its own chairman, except where there is a permanent chairman.
- 8. Where practicable, meeting dates shall be planned in advance for an entire semester. Written notices of meetings shall be distributed to committee members, and should also appear in the Bear Facts.
- 9. The chairman of a committee shall be required to call a special meeting within 48 hours after receiving a written request for such a meeting signed by a majority of the committee members.
- 10. A majority of the voting members of a committee shall constitute a quorum.

- 11. By a vote of the standing committee, a subcommittee may be appointed, with a least one
 member of the parent committee being a member
 of the sub-committee. Standing committee
 members who serve on the sub-committee shall
 be approved by the standing committee. All
 findings of a sub-committee shall be reviewed
 and approved by the parent committee before
 entering regular channels. A sub-committee
 shall function until terminated by the parent
 body.
- 12. An ad hoc committee may be appointed by a standing committee to perform a designated piece of work for the parent body. Membership of an ad hoc committee shall be determined by the parent body.
- 13. Once a recommendation has been formulated by a committee, it is expected that this recommendation will proceed through the established channels to its final disposition along with whatever comments and recommendations it may accumulate along the way. Only in very exceptional circumstances (e.g. when additional information significantly affecting the issue in hand is made available or when a procedural error has been made) should the matter be referred back to its originating committee for reconsideration before it has received final approval or rejection.

D. Committee Review

The Clearing House Committee shall conduct an annual review of the committee structure to make changes that are deemed appropriate.

Apathy Hurts

by ROB MELTON OAK LEAF EDITOR

The sale of Student Body Cards has fallen approximately \$8,000 short of meeting estimated income and expense figures, according to Finance Commissioner Ron Edwards. The trend has student leaders concerned over the apparent lack of interest on the part of many students to support the Associated Students projects and programs.

Plans have already been presented to cut several programs completely from the Associated Students' sponsorship, According to Edwards, there is little hope the difference will be made up next semes-

because the student fee drops from \$9 to \$7 in the Spring.

As of the last day of registration, according to Eugene Canevari, dent Activities Advisor, the total income from the sale of student body cards had totalled only \$30,400. Previous Fall semester incomes for the sale of cards has totalled approximately \$45,000. This year's budget was based on a projected income of \$80,000. Unless a miracle happens, the Associated Students will take in only \$60,000 this year; \$20,000 short of their estimated income.

The proposed cuts this semester alone will total some \$6,000, still \$2,000 short of breaking even. The decrease in revenue will cause a 10% loss off the top of the athletic budget, \$1,800. Other cuts threaten to eliminate all together the art awards, First Leaves literary publication, dances and public relations.

In addition, the following cuts from ongoing programs were recommended: Theatre arts, \$500; Oak Leaf, \$300; Film Project Grants, \$300; Student Project Grants, \$200; and Miscellaneous, \$600.

If students are not willing to support the Associated Students by purchasing a student membership card, the programs that directly benefit these non-participating members should be the first to be discontinued.

Even if the Spring registration income equals this semester's income, and the same cuts are made, the Associated Students will still have a deficit of \$8,000.

It is suggested that those who have not yet purchased their student body cards do so, and those who have purchased them make sure that those that you know have bought their cards. There are loans as well as special payment plans which are available or can be arranged for students needing special assistance.

It is imperative that these funds be raised if SRJC Associated Students projects are to continue successfully.

Staff Comment

Hard Sell Simple Waiver

by MIKE KELLY STAFF WRITER

The entire executive committee is majoring in unabashed salesmanship this semester and what they're selling is student body fees at \$9 a crack.

Why the hard sell? Because more and more students are deciding to waiver their student body memberships. The result is less revenue for the Associated Students' Budget.

The student who doesn't wish to pay the \$9 fee signs a waiver. Supposedly the waiver eliminates a great deal of hassles—not so.

As I said, it's hard sell time. If you're contemplating signing the waiver you will, as Executive Vice President Craig Paul says, "inadvertently speak to someone." They speak to you. A verbal barrage of

staggering content follows your reason for not paying.

Your reason for signing is countered and blocked. Kathy Lazarus is countering. "You've no money? How about a loan?" She counters but doesn't block. "Do you realize where your money goes?" The student doesn't and the torrent comes on. He doesn't pay though.

Kathy remarks cheerfully, "My conversive rate is dipping into the red." So's the budget. It should be noted that all fees paid to date amounts to \$34,000. In the spring semester this drops off considerably. The shocker comes when one looks at the projected total for this year's budget. \$76,000?!

So take heed students. If you're looking to sign the waiver carry ice cubes in your ears for they just might get a wee, bit scalded.

PARKING PROPOSAL - B

The SRJC Associated Students would contribute \$1,000 per semester to the College Parking Program. The Associated Students would then purchase a parking permit for \$1.00 for each member of the Association who registers his car on campus.

The District would receive the following revenue during the Spring Semester 1974:

Associat	ted St	tudents Parking Investment		\$1,000
Approx.	3400	day permits @ \$1.00		3,400
Approx.	200	day permits @ \$5.00		1,000
Approx.	3000	night school permits @ \$2.00	-	6,000
			- 12	\$11,400

The Spring 1974 semester parking program only needs to generate \$8,640 to meet the budgeted income figure.

The income for the school year 1974-75 would be approximately \$23,000.

No Students On Cal State Committee

ROHNERT PARK - Students at California State College, Sonoma, can have a voice in choosing the president of the country, but apparently not in choosing the president of the college.

The faculty Academic Senate yesterday overwhelmingly rejected a students' bid to have one of their own placed on a presidential selection commit-

The senate previously named two faculty members and one member of the college staff to serve on the so-called Rainbow committee along with six appointees of Chancellor Glenn Dumke.

It also rejected yesterday a move to replace the staff representatives with a third faculty

President Thomas McGrath, who abstained in the vote for a student delegate, has announced his retirement, effective next

Before McGrath was chosen, there was a student on the se-

lection committee.

But since 1969, there have been no elected student representatives on campus because students voted to disband their

campus government.

When the committee was organized, Armstrong conceded he dismissed it as a "shuck" and a "jive" because it would be dominated by the Chancellor's appointees.

Jack Armstrong, student representative on the Academic Senate, said the move for representation resulted from a spontaneous expression of feeling.

But, Armstrong said, 60 students showed up at an impromptu meeting on Tuesday, declared they wanted representation, and unanimously chose Theresa Delao as their nominee.

In the hours before yesterday's meeting, 324 students signed a quickly-drawn petition, Armstrong said.

The Rainbow Committee is empowered to interview candidates and submit a list of nominees to the trustees of the state college and university system.

SUBJECT:

Parking Proposal

B

Santa Rosa Junior College currently charges at \$5 per semester parking fee to all students wishing to park on campus (Ed.Code 25425.1). Under the provisions of this Code and further, using Ed.Code 10703.5, the Associated Students will become a partner in the parking program at Santa Rosa Junior College.

Therefore, under these provisions, it is proposed that:

- 1) The Associated Students buy into the parking program for \$1000.
- 2) That the Associated Students be able to sell a parking sticker for \$2 to each purchaser of a Student Body Card.

This provision will provide the following anticipated revenue to the College for the Spring Semester, 1974:

College Student		ege Student	Assembly	\$ 1,000	
	3500	stickers @	\$2	7,000	
	200	stickers @	\$5	1,000

The meeting adjourned at 12:32 p.m.

Students:

Take heed, the environment is being threatened. In order to stop more parking lots being laid on the earth; paid parking has been suggested for Santa Rosa Junior College. Parking arms will be installed at the expense of the students. It will cost you an estimated \$18 a year to park your car. The money collected will pay for the gates, maintenance, etc.

There are alternatives to this. If you have other suggestions bring them to the Parking Committee Meeting on February 12th, at noon, in the Board Room, Bailey Hall. Become aware of the fact that this affects you.

In the meantime the forming of a carpool is once again being attempted. Please cooperate by filling in the form and bring it to the Student Activities Office. Effort will be made to get you into a carpool, saving you money, air and land.

a. Blood drive - David Merrington reported on the results of the Blood Drive.

Thank you. Thank you.

117TH YEAR

LET THE PUBLIC SPEAK SRIC Student Favors **Use of Atomic Power**

SRJC Blood Donors Commended

EDITOR: I feel that the students and faculty of the Santa Rosa Junior College deserve public recognition for their support of the blood program in our community. The fact that blood donors are "very special people" was made even more obvious to our blood bank personnel by the patience and all-round good attitudes of the 119 people who presented themselves as blood donors at our mobile at the college on Nov. 16.

David Herrington of the Student Activities Office headed the drive with assistance from the Vets Club and the Bicycle Club of the school. The very successful drive involved a great deal of time and hard work. On behalf of the patients in our area hospitals who benefited most, we thank all those involved.

> Mrs. LEA SAWYER, Managing Director Sonoma County Community Blood Bank, Santa Rosa

Film Grants To SRJC Students

The Associated Students at Santa Rosa Junior College have made small grants to students at the college working on film projects this semester.

Film-making grants, most for about \$25, have been awarded to Fred Courtney, Ward Hall, Jess Henryes, Gary Labe, Peter Schmalenberger, Bruce Spotswood, Michael Stewart and Heloie Valverde.

All eight submitted proposals and budget requests which were screened by a student film project grant committee. Funds for the grants came from Associated Students funds.

SUBJECT:

Parking Proposal E

Santa Rosa Junior College currently charges at \$5 per semester parking fee to all students wishing to park on campus (Ed.Code 25425.1). Under the provisions of this Code and further, using Ed.Code 10703.5, the Associated Students will become a partner in the parking program at Santa Rosa Junior College.

Therefore, under these provisions, it is proposed that:

- 1) The Associated Students buy into the parking program for \$1000.
- 2) That the Associated Students be able to sell a parking sticker for \$2 to each purchaser of a Student Body Card.

This provision will provide the following anticipated revenue to the College for the Spring Semester, 1974:

Colle	ege Student	Assembly	\$	1,000
3500	stickers @	\$2		7,000
200	stickers @	\$5		1,000

The SRJC Associated Students would contribute \$1,000 per semester to the College Parking Program. The Associated Students would then purchase a parking permit for \$1.00 for each member of the Association who registers his car on campus.

The District would receive the following revenue during the Spring Semester 1974:

Associated Students Parking Investment	\$1,000
Approx. 3400 day permits @ \$1.00	3,400
Approx. 200 day permits @ \$5.00	1,000
Approx. 3000 might school permits @ \$2.00	6,000
	\$11,400

The Spring 1974 semester parking program only needs to generate \$8,640 to meet the budgeted income figure.

The income for the school year 1974-75 would be approximately \$23,000.

SUBJECT:

Parking Proposal B

Santa Rosa Junior College currently charges at \$5 per semester parking fee to all students wishing to park on campus (Ed.Code 25425.1). Under the provisions of this Code and further, using Ed.Code 10703.5, the Associated Students will become a partner in the parking program at Santa Rosa Junior College.

Therefore, under these provisions, it is proposed that:

- 1) The Associated Students buy into the parking program for \$1000.
- 2) That the Associated Students be able to sell a parking sticker for \$2 to each purchaser of a Student Body Card.

This provision will provide the following anticipated revenue to the College for the Spring Semester, 1974:

College Student A	Assembly \$ 1,000
3500 stickers @ \$	7,000
200 stickers @ \$	1,000
3000 stickers @ \$	6,000 6,000

If they don't like the program . . .

. . . If you made it \$10.00 less — (they still wouldn't buy it . . . If its a matter of principal . . . I mean, what difference does a dollar mean to them . . .

Ben Race: Mr. Canevari?

Mr. Canevari: Having worked with the students talking to the people who didn't know, or didn't want to buy a student body card — \$5.00, \$7.00 and \$9.00 is a lot of money. Part of our program is the Dean's Loan and Grant Fund, we loaned \$9.00 fees for the Fall semester to several hundreds of students, convinced them in joining the Associated Students — their plight was simply yes, we do want to join but, no, we don't have the money. I don't know what our rate of collection is on this loan (\$9.00) — As we were dumping money in the Loan and Grant Fund, it seems the way to go.

Recently, I proposed to Dr. Mikalson that we suggest to the Board of Trustees that the members of the Ass clated Students get a parking sticker FREE and my logic ran something like this . . . We believe that some of the money that went into the parking mandated fee (with a nice neat State Law behind it) came from student body card fees. Some of the students indicated to us -- they would not pay both. On one end you have a fee that you have to pay if you are going to park on campus, and on the other end you have a \$9.00 option that you don't have to pay. And, I'm afraid a lot of students seem to operate the way that I think I would, if my county taxes, which I just got through putting in the mail, were not mandated by law. I have a hunch that I would sometimes let them slide, even though I recognize that roads and streets and fire protection, etc, are necessary kinds of things. Students sometimes are not aware of all the things that the Associated Students do for them. We have a very transcient type pf population sometimes, and the educational process is sometimes a difficult one. I think the essence of what we are talking about comes down to this -- There is no way that the State Legislature is going to give us a mandatory student body card at the college level, so we look at the Associated Students Budget, and approximately \$50,000 of it is in programs that are either curriculum oriented or which the District and the Associated Students are funding together on some arrangement.

What we're saying is, we think these programs a e important and we think
it is important for students to have their direct money in them. We also
think it is important for students to have their direct money in them.

We also think it is important for students to have some say about how those
monies are divied up and spent, in cooperation with the District. What we
are really saying is: since the parking fee is mandated and since we feel
that some of those dollars were taken from student body card fees, how much
is the District willing to underwrite the Associated Students, through this
particular vehicle? And, it really comes down to that.

Well, Dr. Mikalson talks about one semester, I'm afraid I am looking from here on out. We would have to renegotiate the dollar amount based on our experience next time around, and my shot for wanting a free card for student members was, if this was really successful this semester, monies collected above and behond that will make the remainder of the parking budget this year.

Evening College, those day stidents who don't belong to the Associated Students, or wouldn't belong, and whatever amount we buy into the program, we simply could not negotiate this particular item. But, I think the real essence is — is the Associated Students important — are the programs that they are in legitimate? And, is it important to the college to have that kind of student input into the system? If it is, if any of these things are valid, then we have to find some way to help shore this thing up.

Mr. Lounibus: Would you charge the night students anything?

Mr. Canevari: "Yes, I would still keep charging the \$2.00 fee."

Mr. Lounibus: How about discrimination?

Mr. Canevari: "We feel that buying into the parking program for some dollar amount, allows this under the law."

Mr. Canevari: "If you register your car...."

SRJC Students Going to Russia

Joan Diamond and Darlene Calvi, Santa Rosa Junior College students going to Russia for Christmas, are willing to share their experiences with local audiences via slides and talks upon their return.

Both girls are paying their own way, but could use financial support to help cover their expenses. Each has received a grant from the Associated Stu-

expenses. Each has received a grant from the Associated Students at SRJC.

Persons or organizations interested in contacting either Joan or Darlene may do so either through Gary Anderson, an environmental science instructor at SRJC who was instrumental in helping arrange the tour, or through the Student Activities Office at the college.

DONNA COURTNEY

SRJC Elects Student President

Donna Courtney has been elected president of the Associated Students for the spring semester at Santa Rosa Junior College.

In a low turnout election, held last week, Mrs. Courtney, running on the Outreach slate, easily defeated Susan "Suki" Phipps and Jack Silver for the post.

A Sonoma resident, majoring in pre-law, Mrs. Courtney and her husband, Fred, are both full-time students at SRJC. She holds a Doyle Scholarship and has been active in various campus organizations, including Alpha Gamma Sigma, the honor society. She is employed as a laboratory assistant at the college.

Elected along with Mrs. Courtney were David Schaf, executive vice president; Cheryl Matteri, vice president; Crystal Barnard, recording secretary; and Rick Koppel, corresponding secretary.

Also chosen were five sophomore representatives, including Fred Courtney, the new president's husband. Others elected were Gregory Champion, Steve Hemphill, Candy Tariske and April Williams, Freshman representatives' elected included Molly Brown, Nikki Laughlin, Darryl Warner, Valerie Whitt and Bernard M. Willett II.

Voters also approved a number of changes in the Associated Students constitution.

Amendment to
I.e.e. codo - Amend Article I Section-Dto read:

Any club not represented at two consecutive, or three intermittent meetings, shall be charged with non-attendance. The Inter-Club Council shall decide, by a majority vote, the guilt or innocence of any club charged with non-attendance. If found guilty, that club will lose all recognition by the Inter-Club Council. A club may appeal to the Inter-Club Council for reinstatement at any time.

ENERGY CONSERVATION:

John Thomson, Supt. of Buildings & Grounds, submitted a comprehensive report on steps that will be taken to conserve on gas and electricity. The plan would effect a 5% reduction in electricity and 10% for gas. At present most of these reductions have to be hand-made each day; if the system was automated the cost would be approximately \$3,000 for the necessary controls.

PARKING: Deferred to the January 7, meeting. Trustees Maggini and Haehl will serve on the parking committee.

PROJECT PLANNING GUIDES - ANALY REMODELING AND ENVIRONMENTAL SCIENCE BUILDING:

Earl Johnson reported on the project planning guides for Analy Hall and the Environmental Science Buildings which will be presented for Board approval at the January 7 meeting.

CHILD CARE CENTER FUNDING:

The Associated Students requested release of \$5,000, as the need arises, to cover the Child Care Day Care Center expenses for the remainder of the school year, or until State and Federal funds are available.

On a motion by Trustee Lounibos, seconded by Trustee Haehl and carried, the release of \$5,000 of Associated Student funds is approved as outlined above, waiving the present understanding that this is a matching fund, and subject to agreement between Gene Canevari and Robert Maggiora.

MILLER PROPERTY:

Robert Maggiora reported that Mrs. Miller is considering a proposal for the purchase of two parcels of property on Elliott Avenue by the District, and discussing it with her attorney. A response should be forthcoming from her within the next few weeks.

CLARK NATTKEMPER RETIREMENT:

On a motion by Trustee Jacobs, seconded by Trustee Maggini and carried, the retirement of Clark Nattkemper, instructor in the biology department since 1943, is accepted effective June 30, 1974.

Remarks & Closing (see next two pages)

(applause)

I do not advocate student rule - but I strongly advocate student participation - your participation in the governance of Santa Rosa Junior College. Students can make positive contributions!

So again- for those contributions which have occured - and for those which

I am confident will be made in the future- THANK YOU
Finally--

I have a special and somewhat personal debt of gratitude to pay. This student has worked hard in student government, he has served well, he has come back from defeat into victory, he has become a friend- and he was a loyal friend and ally when I desperately needed me-! To you Ron I give my special thanks!

So Bob-- Thank you for a productive and enjoyable semesterDonna-- Thank you for winning-Ladies & Gentlemen--- Good Night!

SRJC trustees, students

n parking fee compromise

Agreement has been reached in spring semester student barking fees at Santa Rosa Junor College.

Approved last night by the coard of trustees was a compronise plan which satisfied both he Associated Students and the college administration.

It calls for the Associated Stulents to buy into the parking begram for \$750 and allows the mization to sell a parking ker for \$2 to each purchaser a student body card.

The district will sell parking tickers to day students who do to purchase student body cards or \$5 and to evening college tudents for \$2.

In the past SRJ has charged

225,000 in 1974-75 funding for

ie Extended Opportunity Pro-

cam, which assists needy stu-

a \$5 per semester fee to all students who park on campus. The Associated Students asked for a change in policy to allow holders of student body cards to benefit.

Under the new plan, anticipated revenue for the spring semester is \$14,750.

The agreement also calls for the regular parking sticker to cost \$7 for the fall 1974 semester, with the cost to student body holders and evening college students to remain at \$2. During that semester the Associated Students will pay \$1,000 to become a parking partner.

In other action last night the SRJC heard:

- Was handed a \$43,000 check

representing the latest dividends from the Doyle trust by Exchange Bank president Andrew Sheppard. The money will go toward Doyle Scholarships, making a total of \$140,000 in the scholarship fund this school year. Doyle Scholarships, first awarded in 1949, passed the \$1 million mark last year.

— Approved filing project planning guides for two building projects, the Analy Hall remodeling and the new environmental science building. Some art faculty members indicated they were unhappy about the square footage available in Analy Hall, which will become the campus art facility. The building contains a little less than 16,000

square feet, whereas the instructors project their needs through 1978 at about 26,000 square feet. The board was sympathetic to their problem but agreed with trustee Albert Maggini, who commented: "All you can do is do the best you can with the existing building." Size is restricted because the \$879,000 project will be under state aid. The environmental science building will include 19,720 square feet plus an adjacent greenhouse and be located in a current parking lot on the west side of the campus. Preliminary sketches for both projects will be presented to the board in the fall.

was also agreed to call for bids every three years.

— Agreed to contractor Ralph Palmberg's request to call a special meeting next week between a board committee, legal counsel; college officials, Palmberg and his attorney relative to the complicated legal issues involved in the long-delayed swim center.

— Heard a brief progress report on Lake County annexation from college president Dr. Roy Mikalson, who indicated that so far the discussion has been "all emotional" and has not delved into the educational aspects for the students. The first hearing will be held tonight in Middletown, with additional hearings

set for Kelseyville and Lakeport.

— Received a preliminary report on offering an Associate of Science degree from dean of instruction Brook Tauzer, who indicated initial reaction has been "positive." It will be acted upon later by the board.

Approved the establishment of a campus facility planning committee.

— A p p r o v e d changing the physical education requirement from "units" to "courses" to eliminate a technical problem "of numbers."

— Unanimously rejected compensation for board members as provided by AB 1489. President Ben Race commented he felt it defeated the idea of a lay board.

Approved an amendment to the contract with Steele & Van Dyk for remodeling Analy Hall, subject to approval of county counsel.

— Approved paying a \$1,000 connection fee for a 1½-inch water lines for the farm property.

— Formally approved "Law of the 70s" and "Family Risk Management" as the two courses to be offered in the TV consortium program.

 Set a special meeting for Jan. 21 to review bids on computers and decide on ground rules for classified salary comparisons.

The rules and regulations as set forth in these pages were officially adopted by the Board of Trustees of Santa Rosa Junior College on June 14, 1971 in compliance with a law passed by the State Legislature in the fall of 1969.

A more complete or explicit statement on these rules and regulations may be found in other College documents, such as The Faculty Handbook, The Administrative Handbook, and The Student Handbook. Complete mimeographed copies of the various policies mentioned herein may be obtained in the office of the Dean of Student Personnel and the Student Activities Office.

CAMPUS CONDUCT STANDARDS

College Purposes and Standard of Conduct;

Student Disciplinary Procedures: Student Use of Facilities

Participation. Students are invited to make their views known on these and other college policies. In addition to informal opportunities the following agencies of the college welcome expression of student opinion and participation: Associated Students of Santa Rosa Junior College: instructional departments and administrative offices; counselors; college committees; Academic Senate; Board of Trustees.

Purposes, Resonsibilities and Standards.

Purposes. Santa Rosa Junior College holds that its primary function is the development of intellectual curiosity, integrity and accomplishment. The college further holds that it is in an atmosphere of intellectual freedom and discipline that students can best grow to understand moral, aesthetic, social and economic values. The particular purposes and objectives of the college are:

- 1. General Education. To introduce students to the main fields of knowledge - the humanities, the natural sciences, and the social sciences - and thereby to provide opportunities for personal, intellectual, and cultural growth; and also to encourage the recognition and acceptance of responsibilities, both individual and social.
- 2. Transfer. To provide freshman and sophomore courses for those students preparing for specialized or general education in the upper division of a college or university. To provide opportunity for students to make up deficiencies in preparation for a transfer program.
- 3. Occupational. To provide an appropriate variety of one- and twoyear programs through which students can prepare for a vocational field.
- 4. Guidance. To provide counseling and guidance services to help students determine their aptitudes, acquire occupational information. choose their vocations, plan their programs, and resolve personal or adjustment problems.
- 5. Community Services. To study the educational and cultural needs of the community and to meet those needs by providing day and evening classes for adults, encouraging the use of facilities by community groups, presenting plays, concerts, lectures, forums, art exhibits, and other special programs.

General Responsibilities. To further these objectives the college employs teachers and other staff, maintains physical facilities, and attends to the health and safety of persons on the campus. The individuals making up the college community are diverse, yet interdependent. Their objectives and the framework provided by the college are necessarily complex. Thus each member of the college community should cooperate in the pursuit by others of their educational objectives, and support the college in providing this framework in which teaching, learning and service are honored.

College Conduct Standards. Interference with the college's educational objectives of community life is cause for disciplinary actions. All members of the college community and visitors are expected to refrain from such interference, including amoung others the following particular types of conduct on college premises and at college sponsored or authorized activities:

- 1. Obstruction or disruption of teaching, administration, or other operations or activities of the college or authorized by it; physical abuse or conduct which threatens the health or safety of any person.
- 2. Theft or damage to property of the college or of a member of the college community or visitor; unauthorized entry to or use of college supplies, equipment, or facilities.
- 3. Dishonesty, such as cheating, plagiarism, misuse of college documents or identification; furnishing false information to the college.
- 4. Possession, use, appearance under the influence, or distribution of narcotic or dangerous drugs or alcoholic beverages; smoking in unauthorized areas.

- 5. Disorderly conduct or lewd, indecent, or obscene conduct or expression.
- 6. Failure to comply with other published college regulations or provisions of law which the college is responsible to enforce.
- 7. Failure to comply with directions of college officials acting in the performance of their duties.

Paragraph 6 above refers to regulations pertaining to specific activities. For example, the time, place, and manner of public expression and use of college facilities, as regulated by the policy statement on speakers, solicitation of funds and dissemination of literature on campus; and regulations on traffic and parking. Members of the campus community are expected to familiarize themselves with these regula-tions, which will be made available to them as they engage in the activities concerned.

Statement of Academic Freedom. The Board or Trustees, the administration, and the faculty of Santa Rosa Junior College believe that academic freedom is necessary to the pursuit of truth and follows naturally and inevitably from the opening sentence of the philosophy of the college: "Santa Rosa Junior College holds that its primary function is the development of intellectual curiosity, integrity, and accomplishment." The College recognizes that academic freedom is inseparable from academic responsibility; this freedom, then, must not be construed to permit or excuse breach of law.

The teacher, under the principles of academic freedom, has the right to discuss in his classroom all issues, however controversial, that he considers relevant to the nature of his course. This right carries with it the responsibility of considering controversial issues objectively. While the teacher has the right to present conclusions to which he believes the evidence points, he has the responsibility of acknowledging the existence of - and showing respect for - opposing opinions.

The teacher, outside the classroom, has the right as a private citizen to speak and act freely on controversial issues. He has the responsibility of avoiding the association of his personal viewpoint with the name of the college.

The student in the classroom has the right to present ideas, however, controversial, relevant to the subject of the course; he is free to differ responsibly with established views. The student has the responsibility of becoming aware of and showing respect for opposing opinions. In general, the Assistant Dean may dismiss charges against a student or impose a penalty or a non-punitive requirement on the student after a conference or an administrative hearing. If the Assistant Dean determines a penalty of suspension, expulsion or restitution, the student may obtain a new hearing before the College Hearing Board (composed of students, faculty, and administrators). Under certain conditions the President may decide a case should be heard by a non-campus hearing officer instead of by the College Hearing Board. Any recommendation by the Board or by the Assistant Dean of suspension or expulsion requires action by the President; if the President determines these penalties, the Board of Trustees must consider them before they are final. All college disciplinary conferences and hearings are private.

The student's procedural rights are safeguarded in college hearings, for he is entitled to a written explanation of the charges; he has the opportunity to question persons testifying against him and to present evidence in his behalf; he may be assisted by an advisor of his choice; he may obtain a copy of the official tape recording of the hearing, at his expense.

Students who believe they have been harmed through violation of the college standard by a member of the college community may request in writing that disciplinary or remedial action be initiated: against a student, by the Assistant Dean of Students; against a faculty member, by the Dean of Instruction; against a classified employee, by the Dean of Business Services; against an administrator, by his immediate superior.

Every effort should be made to settle disputes personally in an amicable manner, before lodging a complaint.

Definition of College penalties applicable to students for violation of the College Conduct Standard.

- A. Reprimand: notice that a student's conduct in a specific instance does not meet College standards, and that continued misconduct may result in a more serious disciplinary action.
- B. Probation: notice that the student, found in violation of the College standard, may continue to be enrolled under stated conditions, violation of which may be cause for more serious disciplinary action.
- C. Restitution: reimbursement for damage to or misappropriation of property, which may take the form of appropriate service to repair or otherwise compensate for damages. Restitution may be imposed in combination with any other penalty.
- D. Suspension: Denial of all campus privileges, including the right to enter the campus, for a specific length of time not to exceed one full semester beyond the semester in which the offense occurred. Suspension must be confirmed by the Board of Trustees.
- E. Expulsion: removal from the College rolls for an indefinite period of time. Includes loss of all College privilege, including college employment, and the privilege of entering any portion of the campus except by written authorization from the Dean of Students Office. Must be confirmed by the Board of Trustees. Readmission is contingent upon a showing rehabilitation by the student.

These above penalties do not take effect until the action by the College is final.

NOTE ON: Interim Suspension: Denial of all campus privileges, including the right to enter the campus, for a specified period of time pending determination of possible disciplinary action against the student.

NOTE ON: Financial Aid: Participation in campus disruption which results in College discipline or conviction may also jeopardize a student's eligibility for federal and state financial assistance.

The College has the right to invite, as guest speakers, advocates of controversial views. Inherent in this right is the responsibility of presenting differing points of view so that no single one is allowed to predominate.

To insure these principles of academic freedom, the Board of Trustees and the administration of Santa Rosa Junior College will at all times demonstrate their support by actively maintaining and defending that freedom for the academic community.

Student use of college facilities. Student organizations may reserve designated college facilities through the Community Service Office. Uses of facilities must comply with college conduct standards and with requirements of the particular facility. No audio amplification equipment is permitted except as approved by the Community Service Office. Student organizations may sponsor off-campus speakers in assembly type programs after authorization by the Inter-Club Council Committee on Speakers or the Activities Advisor. A "Hyde Park" area in front of the Doyle Student Center (Coop) is designated for presentation by any member of the college community of noon-time debates, statements, or informal discussion. Time may be reserved through the Activities Advisor. The Committee for an Open Forum presents a speaker series on significant social, political and moral issues, through which differing points of view are represented.

Campus organizations may distribute free of charge leaflets and similar material at outdoor areas which are centers of campus life, and at approved assembly-type programs presented by them. This material must be identified with the name of the distributing organization and the authors. Solicitation of funds or donations, or sponsorship of fundraising activities either on or off-campus is permitted only on approval of the Inter-Club Council or the Activities Advisor.

Informational outdoor picketing is permitted on campus, provided it is non-obstructive and otherwise in conformity with college conduct standards. Bulletin boards labelled "open" may be used for publicizing on- or off-campus events of public interest; other bulletin boards are assigned to a department, office, organization or individual.

Students interested in any of these uses of facilities should contact the Activities Advisor for information, and to become acquainted with particular rules governing their intended activity.

Disciplinary and Grievance Procedures. Disciplinary charges may be initiated against a student by another student, certificated or classified staff member, or a non-campus person. A complaint must be in writing, signed, and presented to the Assistant Dean of Students who will investigate and take appropriate action. The Assistant Dean may also initiate disciplinary action on behalf of the college.

College disciplinary procedures may be initiated for violations of the college conduct standard whether or not proceedings are or have been pending in the courts involving the same acts. A student will not be disciplined for off-campus conduct unless it occurs in connection with a college sponsored or authorized activity, or unless it presents a serious threat to the well-being of the college community or members thereof.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. In case of error or omission the liability of Plains Publications, if any, is limited to the amount of actual impairment of the customer's service and may not, in any event, exceed the amount paid for the service during the period covered by the directory in which the error or omission occurred.
